Brussels, 26 November 2026
(OR. en)

EURO 508/26

EUROSUMMIT 2
TSGC 9

NOTE

From:	General Secretariat of the Council
To:	Delegations
Subject:	Euro Summit meeting (26 November 2026) – Statement

Delegations will find attached the statement agreed by the Euro Summit at the above meeting.

Statement of the Euro Summit, meeting in inclusive format

1. We discussed the current economic and financial situation. The euro area economy has demonstrated resilience, in the face of renewed external pressures, as economic activity has held up better than expected, the labour market remains robust and the financial sector remains sound. Faced with headwinds relating to higher inflation, rising global interest rates and heightened uncertainty, our policies should stay focused on strengthening resilience, maintaining sound and sustainable public finances, and enhancing competitiveness.

2. Effective coordination of our economic and fiscal policies is central to ensuring sustainable and inclusive growth. Taking note of the letter of the President of the Eurogroup of 18 November 2026, we invite the Eurogroup to continue monitoring economic, fiscal and financial developments. We also invite the Eurogroup to report regularly on the work to strengthen the euro's international role. We remain steadfast in our collective determination to deliver on the Savings and Investments Union, in a decisive and swift manner.

3. We recall the commitment undertaken in the One Europe, One Market Roadmap to reach agreement on the digital euro by the end of 2026 and reiterate the importance of swiftly completing legislative work and accelerating the next preparatory steps. This will enable the Eurosystem to advance the necessary preparatory work towards the timely issuance of the digital euro.

4. We welcome the information provided by the Presidents of the European Central Bank, of the Commission and of the Eurogroup on the recent exchanges with major economies on the global economy and macroeconomic imbalances. Continued dialogue will help foster a common understanding of the drivers of imbalances and of concrete policy measures to facilitate orderly rebalancing. We invite the three Presidents to report back to the Euro Summit in due course on the results of the dialogue.
