Subject:	Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on Union guidelines for the development of the trans-European transport network, amending Regulation (EU) 2021/1153 and Regulation (EU) No 913/2010 and repealing Regulation (EU) 1315/2013 - Preparation for the trilogue

---

**I. INTRODUCTION**

1. On 14 December 2021, the Commission adopted the proposal for a Regulation of the European Parliament and of the Council on Union guidelines for the development of the trans-European transport network, amending Regulation (EU) 2021/1153 and Regulation (EU) No 913/2010 and repealing Regulation (EU) 1315/2013. The proposed revision of the TEN-T development policy aims to build a reliable, seamless and high-quality trans-European transport network that ensures sustainable connectivity across the European Union without physical interruptions, bottlenecks or missing links by 2050. The intention is that this network will contribute to the achievement of the EU's sustainable mobility objectives, the proper functioning of the internal market and the economic, social and territorial cohesion of the EU. It should be developed step by step, with proposed deadlines in 2030, 2040 and 2050.

2. An amended proposal was adopted by the Commission on 27 July. It aims in particular to respond to the impact of Russia's war of aggression against Ukraine.
3. The European Economic and Social Committee adopted an opinion on the proposal on 23 March 2022. The Committee of the Regions adopted an opinion on the proposal on 11 October 2022.
4. In the Council, following discussions at technical level at the Working Party on Transport – Intermodal Questions and Network between January and November 2022, the TTE Council reached a General Approach on the proposal at its meeting on 5 December 2022.
5. In the European Parliament (EP) Mr Dominique RIQUET (Renew, FR) and Ms Barbara THALER (EPP, AT) were appointed co-rapporteurs for the proposal on behalf of the TRAN committee. The TRAN Committee voted on the report on 14 April 2023, and the decision to enter into interinstitutional negotiations on that basis was confirmed in plenary on 19 April.
6. Subsequently, the first informal trilogue was organised on 24 April 2023, aiming at presentation and mutual understanding of the respective positions of the European Parliament and of the Council on the key issues of the proposal.
7. Following the first informal trilogue, ten technical meetings with the European Parliament were held in May and June, the last one on 16 June 2023. The technical meetings have found potential compromises on several issues on Chapter I and II of the proposal. Lines, which have been tentatively agreed with the EP, are marked in **green** in the attached four-column table.
8. Lines marked in **yellow** entail compromises on technical issues which will need to be further discussed with the Parliament.

## II. PRESIDENCY SUGGESTIONS IN VIEW OF THE NEXT TRILOGUE

9. The second informal trilogue is scheduled for 26 June 2023. Building on the progress made at technical meetings with the European Parliament and at the Working Party on Transport – Intermodal Questions and Network, the Presidency intends to endorse tentatively agreed lines and exchange views on some political topics in Chapters I and II.
10. At the last meeting at the Working Party on Transport – Intermodal Questions and Network on 16 June, delegations confirmed their agreement on the majority of the Presidency compromise proposals while some delegations were still scrutinizing, had concerns or reservations on some. In the light of that meeting, the Presidency has made adjustments to the compromise proposals on lines **119, 144e, 173f, 181, 182, 199, 237c, 239 and 251a** with the aim to accommodate delegations’ concerns and comments. Following the technical meeting held with the EP on the same day, a new compromise proposal has been elaborated by the Presidency based on the EP’s amendment in line **251b**.
11. The EP has proposed several amendments which include new objectives for the TEN-T in Chapters I and II. During the technical meetings, the EP has in particular insisted on including maintenance as an objective in TEN-T (lines 166b, 173f). The EP has also introduced or strengthened several other references to maintenance in Chapters I and II (lines 140, 144, 199, 201a, 235). The Presidency’s intention is to defend the general approach and believes that the discussions on maintenance are closely linked to the discussions on Article 48. Nevertheless, the Presidency is willing to explore the possibility for a compromise in Chapter I and believes that a neutral wording could be introduced in line 173f as long as the text remains general.
12. Following the meeting of the Working Party on Transport – Intermodal Questions and Networks of 16 June, changes to the text entered in the last column compared to the previous version (ST 9454/4/23 REV 4) are marked in **bold-underline** or ~~strikethrough~~.
13. On lines where no compromise proposals have been included, the Presidency intends to keep the general approach at the upcoming trilogue.

### **III. CONCLUSION**

14. In the light of the above, the Permanent Representatives Committee is invited to agree on the mandate for the upcoming trilogue as set out in Annex I (the four-column table) to this note.
-

**Proposal for a REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL on Union guidelines for the development of the trans-European transport network, amending Regulation (EU) 2021/1153 and Regulation (EU) No 913/2010 and repealing Regulation (EU) 1315/2013 (Text with EEA relevance)

					and economic benefits from transport;
Article 12(1), point (b)					
230	(b) ensuring enhanced accessibility and connectivity for all regions of the Union while taking into consideration territorial and social cohesion as well as the specific case of the outermost regions and other remote, insular, peripheral and mountainous regions as well as sparsely populated areas;		(b) ensuring enhanced accessibility and connectivity for all regions of the Union while taking into consideration territorial and social cohesion, <i>and in particular as well as</i> the specific case of the outermost regions and other remote, insular, peripheral and mountainous regions as well as sparsely populated areas;	(b) ensuring enhanced accessibility and connectivity for all regions of the Union while taking into consideration territorial and social cohesion as well as the specific case of the outermost regions and other remote, insular, peripheral and mountainous regions as well as sparsely populated areas;	A Presidency compromise proposal:  (b) ensuring enhanced accessibility and connectivity for all regions of the Union while taking into consideration territorial and social cohesion, and including the specific case of the outermost regions and other remote, insular, peripheral and mountainous regions as well as sparsely populated areas;
Article 12(1), point (c)					
231	(c) ensuring optimal integration of the transport modes and interoperability between transport modes;			(c) ensuring optimal integration of the transport modes and interoperability between transport modes,	B

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
				including active modes of mobility in urban areas;	
Article 12(1), point (d)					
232	(d) bridging missing links and removing bottlenecks, particularly in cross-border sections;		(d) bridging missing links and removing bottlenecks, particularly in <i>relation to in cross-border sections or cross border links within the meaning of Regulation (EU) 2021/1153</i> ;	(d) bridging missing links and removing bottlenecks, particularly in <b>terms of interoperability and for</b> cross-border sections;	<b>B</b> Presidency proposes to revert back to the COM proposal.
Article 12(1), point (e)					
233	(e) deploying the necessary infrastructure which ensures a seamless circulation of zero-emission vehicles;		(e) deploying the necessary infrastructure which ensures a seamless circulation of <del>zero-emission</del> <i>zero- and low-emission</i> vehicles, <i>vessels and aircrafts using alternative fuels as defined in Regulation (EU) [ ] [on the deployment of alternative fuels infrastructure]</i> ;	(e) deploying the necessary infrastructure which ensures a seamless circulation of <del>zero-emission</del> <b>zero and low emission</b> vehicles, <b>vessels and aircrafts</b> ;	<b>B</b> PCY compromise proposal:  deploying the necessary infrastructure which ensures a seamless circulation of zero and low emission vehicles, vessels and aircrafts; in view of contributing to transport emission reduction and increased energy security.
Article 12(1), point (f)					

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
234	(f) promoting the efficient and sustainable use of the infrastructure and, where necessary, increasing capacity;		(f) promoting the efficient, <i>seamless</i> and sustainable use of the infrastructure and, where necessary, increasing capacity;	(f) promoting the efficient and sustainable use of the infrastructure and, where necessary, increasing capacity;	<b>B</b> Presidency proposes to accept the EP proposal.
Article 12(1), point (g)					
235	(g) keeping existing infrastructure operational and improving or maintaining its quality in terms of safety, security, efficiency of the transport system and transport operations, climate and disaster resilience, environmental performance, and the continuity of traffic flows;		(g) keeping existing infrastructure operational and <i>improving or maintaining optimizing, maintaining, consolidating and upgrading</i> its quality in terms of safety, security, efficiency of the transport system and transport operations, <i>resilience of critical infrastructure as well as</i> climate and disaster resilience, environmental performance, and the continuity of traffic flows;	(g) keeping existing infrastructure operational and improving or maintaining its quality in terms of safety, security, efficiency of the transport system and transport operations, climate and disaster resilience, environmental performance, and the continuity of traffic flows;	<b>B</b>
Article 12(1), point (h)					
236	(h) improving the quality of services and social		(h) improving the quality of services and social	(h) improving the quality of services and social	<b>B</b>

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
	conditions for transport workers, accessibility for all users, including persons with disabilities or reduced mobility and other people in situations of vulnerability;		conditions for transport workers, accessibility for all users, including persons with disabilities or reduced mobility and other people in situations of vulnerability, <b>preventing and mitigating mobility poverty</b> ;	conditions for transport workers, accessibility for all users, including persons with disabilities or reduced mobility and other people in situations of vulnerability;	Presidency compromise proposal:  (h) improving the quality of services and social conditions for transport workers, accessibility for all users, including persons with disabilities or reduced mobility and other people in situations of vulnerability, preventing and mitigating transport poverty;
Article 12(1), point (ha)					
236a			<b>(ha) ensuring the implementation and strict enforcement of the common operational and technical standards;</b>		<b>B</b>
Article 12(1), point (i)					
237	(i) implementing and deploying ICT systems for transport.		(i) implementing and deploying ICT systems for transport <b>and enabling digital enforcement.</b>	(i) <del>implementing and deploying</del> <b>improving digitalisation and developing automation, in</b>	<b>B</b>

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
				particular through the implementation and deployment of ICT systems for transport.	
Article 12(1), point (ia)					
237a			<i>(ia) ensuring that sufficient capacity for rail passenger and freight is reserved on the corridors, with a fair share for each, following the integration of Rail Freight Corridors into the European Transport Corridors;</i>		<b>B</b>
Article 12(1), point (ib)					
237b			<i>(ib) seeking synergies across all modes of transport, including active modes, and removing barriers to active mobility, when infrastructure is being upgraded or newly built;</i>		<b>B</b> EP proposal falls, covered by line 242a.
Article 12(1), point (ic)					

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
237c			<i>(ic) adapting, where necessary, the infrastructure to a dual use in order to address both civilian and defence needs, paying particular attention to strategic infrastructure of the Union;</i>		<p><b>C</b></p> <p>Presidency proposes to discuss this line at a later stage together with EP AM on Article 47a on military mobility.</p> <p>[PCY compromise proposal to be discussed at later stage: ic) adapting where necessary, the infrastructure to a dual use in order to address both civilian and defense needs;]</p>
Article 12(1), point (id)					
237d			<i>(id) updating and, where relevant, constructing new infrastructure, notably to increase capacity for more sustainable modes of transport in accordance with paragraph 1 point (a) of this Article</i>		<p><b>B</b></p>
Article 12(2)					

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
238	2. In order to complement the measures set out in paragraph 1, particular consideration shall be given to measures that are necessary for:			2. In order to complement the measures set out in paragraph 1, particular consideration shall be given to measures that are necessary for:	
Article 12(2), point (a)					
239	(a) contributing to transport emission reduction and increased energy security by promoting the use of zero-emission vehicles and vessels and renewable and low-carbon fuels, through the deployment of corresponding alternative fuels infrastructure;		(a) contributing to transport emission reduction and increased energy security by promoting the use of <del>zero-emission</del> <b>zero- and low-emission</b> vehicles and vessels and renewable and low-carbon fuels, through the deployment of corresponding alternative fuels infrastructure <i>in accordance with Regulation (EU) [...] on the deployment of alternative fuels infrastructure</i> ;	(a) contributing to <del>transport emission reduction and increased energy security by promoting the use of zero-emission vehicles and vessels and renewable and low-carbon fuels, through the deployment of corresponding alternative fuels infrastructure</del> <b>mitigating exposure of urban areas to negative effects of transiting rail and road transport; and</b>	<b>B</b> PCY compromise proposal:  (a) contributing to mitigating exposure of urban areas and, where relevant, densely populated <del>rural</del> <b>sensitive rural</b> areas to negative effects of transiting rail and road transport; and
Article 12(2), point (b)					
240					

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
	(b) mitigating exposure of urban areas to negative effects of transiting rail and road transport;		(b) mitigating exposure of urban <b>and rural</b> areas to negative effects of transiting rail and road transport;	<del>(b) mitigating exposure of urban areas to negative effects of transiting rail and road transport.</del> Moved to (a);	B

	management and increased operational performance.			management and increased operational performance.	
Article 12(2), new point (e)					
242a				<b>(e) contributing to positive health and environmental effects by promoting the use of active modes of mobility through the development of corresponding infrastructure for cycling and walking.</b>	<b>B</b> EP accepts Council AM.
Article 12(2), point (db)					
242b			<i>(da) ensuring equal access for all market participants on the TEN-T infrastructure.</i>		<b>B</b>
Article 12(2), point (dc)					
242c			<i>(db) significant reduction of border waiting times for road freight transport</i>		<b>C - linked to operation requirements.</b>

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
Article 12(2), point (dd)					
242d			<i>(dc) accelerating the construction of "projected new construction lines" in cross-border sections, through a single entity management and a fast track procedure, in order to increase rail freight traffic;</i>		C
Article 12(2), point (de)					
242e			<i>(dd) increasing the resilience of the network, with a focus on critical infrastructure and dual-use infrastructure;</i>		C
Article 13					
243	Article 13 General priorities for the European Transport Corridors			Article 13 General priorities for the European Transport Corridors	
Article 13, first paragraph					
244					

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
	In the development of the European Transport Corridors, general priority shall be given to measures that are necessary for:			In the development of the European Transport Corridors, general priority shall be given to measures that are necessary for:	
Article 13, first paragraph, point (a)					
245	(a) the development of a high performance and fully interoperable rail freight network across the Union;		(a) the development of a high performance and <i>seamless</i> fully interoperable rail freight network across the Union;	(a) the development of a high performance and fully interoperable rail freight network across the Union;	<b>B</b> Presidency proposes to stick to the Council GA.
Article 13, first paragraph, point (b)					
246	(b) the development of a high performance rail passenger network, fully interoperable and at high speed, connecting urban nodes across the Union;			(b) the development of <del>aan</del> <b>interoperable</b> high performance rail passenger network, <del>fully interoperable</del> <b>and including</b> at high speed, connecting urban nodes across the Union;	<b>B</b> EP accepts the Council position.
Article 13, first paragraph, point (c)					
247	(c) the development of a seamless inland waterways,		(c) the development of a seamless inland waterways,	(c) the development of a <del>seamless</del> <b>efficient</b>	<b>B</b>

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
	aviation and maritime infrastructure system;		aviation and maritime infrastructure system <i>for passengers and freight</i> ;	<b>aviation and</b> inland waterways, <del>aviation and</del> <b>transport infrastructure and of a maritime transport infrastructure system well integrated within the European Maritime Space</b> ;	
Article 13, first paragraph, point (d)					
248	(d) the development of a safe and secure road network, with sufficient alternative fuel infrastructures;		(d) the development of a safe and secure road network, with sufficient alternative fuel infrastructures, <i>and safe and secure truck parking areas</i> ;	(d) the development of a safe and secure road network, with sufficient alternative fuel infrastructures;	<b>B</b>
Article 13, first paragraph, point (e)					
249	(e) the development of improved multimodal and interoperable transport solutions;		(e) the development of <i>improved</i> multimodal and interoperable transport solutions;	(e) the development of improved multimodal and interoperable transport solutions;	<b>B</b> Presidency proposes to accept EP AM. Then EP ready to accept Council AM on next line (line 250).
Article 13, first paragraph, point (f)					
250					<b>B</b>

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
	(f) the intermodal integration of the entire logistic chain, interconnecting efficiently in the transport and urban nodes;			(f) the <b>promotion of</b> intermodal integration of the entire logistic chain, interconnecting efficiently in the transport and urban nodes;	EP can accept Council AM if Council can accept EP AM on previous line (line 249).
Article 13, first paragraph, point (g)					
251	(g) the deployment of the necessary infrastructure which ensures a seamless circulation of zero-emission vehicles.		(g) the deployment of the necessary infrastructure which ensures a seamless circulation of <del>zero-emission</del> <b>zero- and low-emission</b> vehicles, <i>vessels and aircrafts, using alternative fuels as defined in Regulation (EU)[...] [on the deployment of alternative fuels infrastructure];</i>	(g) the deployment of the necessary infrastructure which ensures a seamless circulation of <del>zero-emission</del> <b>zero and low emission</b> vehicles, <b>vessels and aircrafts.</b>	<b>B</b>
Article 13, first paragraph, point (ga)					
251a			<i>(ga) the deployment of ICT systems on all modes on the network in order to ensure an efficient use of the infrastructure;</i>		<b>B</b> Presidency compromise proposal taking on board the EP AM on this line

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
					instead of the EP AM on line 237:  (ga) the deployment of ICT systems on all modes on the network, <b>where relevant</b> , in order to ensure an efficient use of the infrastructure and enabling digital information exchange;
Article 13, first paragraph, point (gb)					
251b			<i>(gb) the improvement of connections between the trans-European transport network and the infrastructure networks of neighbouring countries, as well as the improvement of transeuropean transport infrastructure on the territory of neighbouring countries.</i>		<b>C</b>  Presidency compromise proposal:  <b><u>(gb) the improvement of connections between the trans-European transport network and the infrastructure networks of neighbouring countries, where relevant and where appropriate.</u></b>
Article 13, first paragraph, point (gc)					
251c					<b>C</b>

	Commission Proposal	Amended COM Proposal	EP Mandate	Council Mandate	Draft Agreement / Presidency compromises / Comments
			<p><i>(1a) By ... [date six months after the entry into force of this Regulation], the Commission shall complete a study on connecting all Union Capitals, chosen major cities and metropolitan areas with a railway high speed line network. The study shall be developed in cooperation with the Member States which will consult with stakeholders, and especially railway infrastructure managers. The study shall identify the financial instruments to finance the construction of the network. The conclusions of the study shall become the basis for the Member States to develop a European high-speed network.</i></p>
