PROVISIONAL AGREEMENT RESULTING FROM INTERINSTITUTIONAL NEGOTIATIONS

Subject: Proposal for a regulation of the European Parliament and of the Council on the digitalisation of judicial cooperation and access to justice in cross-border civil, commercial and criminal matters, and amending certain acts in the field of judicial cooperation (COM(2021)759 – C9-0451/20221 – 2021/0394(COD))

The interinstitutional negotiations on the aforementioned proposal for a regulation have led to a compromise. In accordance with Rule 74(4) of the Rules of Procedure, the provisional agreement, reproduced below, is submitted as a whole to the Committee on Legal Affairs Committee on Civil Liberties, Justice and Home Affairs for decision by way of a single vote.

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

on the digitalisation of judicial cooperation and access to justice in cross-border civil, commercial and criminal matters, and amending certain acts in the field of judicial cooperation

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 81(2)(e) and (f), and Article 82(1)(d) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Acting in accordance with the ordinary legislative procedure,

EN

Whereas:

- (1) In its 2 December 2020 Communication on the digitalisation of justice in the EU¹ the Commission identified the need to modernise the legislative framework of the Union's cross-border procedures in civil, commercial and criminal law, in line with the "digital by default" principle, while ensuring all necessary safeguards to avoid social exclusion, *and ensuring mutual trust, interoperability and security*.
- In order to achieve a fully functional area of freedom, security and justice, it is important that all Member States seek to reduce possible existing disparities regarding digitalisation of systems and take advantage opportunities offered by the relevant Union funding mechanisms.

¹ Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions. Digitalisation of justice in the European Union. A toolbox of opportunities, COM(2020) 710 final

- (3) For the purposes of enhancing judicial cooperation and access to justice, legal acts of the Union providing for communication between competent authorities, including Union agencies and bodies, and between competent authorities and natural and legal persons *in civil and commercial matters*, should be complemented by *establishing the* conditions for conducting such communication through digital means.
- (4) This Regulation seeks to improve the efficiency, effectiveness of judicial procedures and facilitate access to justice by digitalising the existing communication channels, which should lead to cost and time savings, reduction of the administrative burden, and improved resilience in force majeure circumstances for all authorities involved in cross-border judicial cooperation. The use of digital channels of communication between competent authorities should lead to reduced delays in processing of the cases, in the short term as well as in the long term, which should benefit individuals , legal entities and Member States' competent authorities, strengthening confidence in justice systems. Digitalisation of communication channels would also be of benefit in the area of cross-border criminal proceedings and in the context of the Union 's fight against crime. In this regard, the high level of security that digital channels of communication can provide constitutes a step forward, also with respect to safeguarding the rights of the persons concerned, such as the right to the respect for private and family life and the right to the protection of personal data.
- (4a) The fundamental rights and freedoms of all persons concerned by the electronic exchange of data pursuant to this Regulation, in particular the right to effective access to justice, the right to a fair trial, the principle of non-discrimination, the right to the respect for private and family life and the right to the protection of personal data, should be fully respected in accordance with Union law.
- (4aa) When carrying out their responsibilities under this Regulation, all entities should respect the principle of the independence of the judiciary, having regard to the principle of separation of powers and the other principles of the rule of law.

- (4b) Effective access to justice is a core objective of the Area of Freedom security and Justice.
 Digital transformation is a key step towards improving access to justice, the efficiency,
 quality and transparency of justice systems.
- (5) It is important that appropriate channels *and tools* are developed to ensure that justice systems can efficiently cooperate digitally. Therefore, it is essential to establish, at Union level, *auniform* information technology instrument that allows swift, direct, interoperable, reliable, *accessible*, secure *and efficient* cross-border electronic exchange of *case-related* data among competent authorities. *The European Commission and Member States should ensure that legal professionals are involved in the digital transformation of justice systems.*
- (6) There are tools which have been developed for the digital exchange of *case-related* data, without replacing or requiring costly modifications to the existing IT systems already established in the Member States. The e-Justice Communication via On-line Data Exchange (e-CODEX) system is the main tool of this type developed to date *to ensure the swift, direct, interoperable, sustainable, reliable and secure cross-border electronic exchange of case-related data between competent authorities.*
- (6a) Digitalisation of proceedings should ensure access to justice for all, including people with disabilities. The decentralised IT system and the European electronic access point established by this Regulation should comply with the web accessibility requirements set out in Directive (EU) 2016/2102 of the European Parliament and of the Council. At the same time, the electronic payment methods referred to in this Regulation should comply with the accessibility requirements set out in Directive (EU) 2019/882 of the European Parliament and of the Council.

- (7) Establishing digital channels for cross-border communication should contribute directly to improving access to justice, by enabling natural and legal persons to seek the protection of their rights and ascertain their claims, initiate proceedings, exchange access falling under the digital form with judicial or other competent authorities, in procedures falling under the scope of Union law in the area of civil and commercial matters.
- (7a) In order to ensure that electronic communication tools have a positive impact on access to justice, Member States should allocate sufficient resources to the improvement of citizens' digital skills and literacy and should pay particular attention to ensuring that the lack of digital skills does not become an obstacle to the use of the decentralised IT system. Member States should ensure that training is offered to all justice professionals concerned, including prosecutors, judges and administrative staff, and competent authorities, in order to ensure effective use of the decentralized IT system. Such training should aim to improve the functioning of justice systems across the Union, as well as the upholding of fundamental rights and values, notably by enabling justice professionals to efficiently address any challenges that may arise during proceedings due to their virtual nature, such as hearings held via videoconferencing or other distance communication technology. Member States should be encouraged and supported by the Commission to apply for grants for training activities under the relevant Union financial programmes.

- (8) This Regulation should cover the digitalisation of communication in cases with cross-border implications falling under the scope of certain Union legal acts in civil, commercial and criminal matters. These acts should be listed in Annexes to this Regulation. Communication between competent authorities and Union agencies and bodies, such as Eurojust or the European Public Prosecutor Office where competent under the legal acts listed in Annex II, should also be covered by this Regulation. Where insolvency practitioners are competent under national law to receive claims lodged by a foreign creditor in insolvency proceedings under Regulation (EU) 2015/848, they should be considered as competent authorities within the meaning of this Regulation.
- (8a) This Regulation should not affect the rules of cross-border judicial procedures established by the legal acts listed in Annexes I and II in substance except for the rules related to the communication by digital means expressly introduced by this Regulation. This Regulation should be without prejudice to national laws on the designation of any authority, person or body dealing with any aspect of the verification and filing of applications, documents and information. The requirements under applicable national law concerning the authenticity, accuracy, reliability, trustworthiness and the appropriate legal form of documents or information should remain unaffected, except from the conditions related to the communication by digital means expressly introduced by this Regulation.

- (8-a) Whether a case is to be considered a matter with cross-border implications, should be determined under the legal acts listed in Annexes I and II to this Regulation. Where the instruments listed in Annexes I and II to this Regulation explicitly state that national law should govern a communication procedure between competent authorities, this Regulation should not apply.
- (8a) The obligations under this Regulation do not apply to oral communication such as by phone or in person.
- (9) This Regulation should not apply to service of documents pursuant to Regulation (EU) 2020/1784 of the European Parliament and of the Council², nor to the taking of evidence pursuant to Regulation (EU) 2020/1783 of the European Parliament and of the Council⁴, which already prescribe their own rules on digitalisation of judicial cooperation. *However, in order to enhance electronic service of documents to be effected directly on a person who has a known address for service in another Member State, certain amendments are introduced to Regulation (EU) 2020/1784 of the European Parliament and of the Council⁶.*

² Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents) (OJ L 405, 2.12.2020, p. 40).

⁴ Regulation (EU) 2020/1783 of the European Parliament and of the Council of 25 November 2020 on cooperation between the courts of the Member States in the taking of evidence in civil or commercial matters (taking of evidence) (recast) (OJ L 405, 2.12.2020, p. 1).

⁶ Regulation (EU) 2020/1784 of the European Parliament and of the Council of 25 November 2020 on the service in the Member States of judicial and extrajudicial documents in civil or commercial matters (service of documents) (recast) (OJ L 405, 2.12.2020, p. 40).

- (9a) When the Commission collaborates with external actors in the design and building stages of the European electronic access point, they should have experience in secure, userfriendly and accessible IT development.
- (10) In order to ensure secure, *efficient*, swift, interoperable, confidential and reliable communication between Member States for the purposes of cross-border judicial procedures in civil, commercial and criminal matters, appropriate *communication* technology should be used, provided that certain conditions as to the *security*, integrity and reliability of the document received and the identification of the participants in the communication are met. Therefore, a secure, *efficient* and reliable decentralised IT system should be *established* for data exchanges in cross-border judicial procedures. The decentralised nature of *the* IT system *should aim to* enable secure data exchanges between *competent authorities*, without any of the Union institutions being involved in the substance of those exchanges. *The decentralised IT system should also make secure data exchanges possible between a Member State and Union agencies and bodies, such as Eurojust, in cases falling under the scope of the legal acts listed in Annex II.*
- (11) The decentralised IT system should be comprised of back-end systems in Member States and the *relevant* Union agencies and bodies, and interoperable access points, through which they are linked using secure interconnections. The access points of the decentralised IT system should be based on e-CODEX.

(12) For the purposes of this Regulation, Member States could use a software developed by the Commission (reference implementation software) instead of a national IT system. This reference implementation software should be based on a modular setup, meaning that the software 7 s is packaged and delivered separately from the e-CODEX components needed to connect it to the decentralised IT system. This setup should enable Member States to reuse or enhance their existing national judicial communication infrastructures for the purpose of cross-border use. For matters relating to maintenance obligations, Member States could also use a software developed by the Hague Conference on Private International Law (iSupport).

(12a) The Commission should be responsible for the creation, maintenance and development of this reference implementation software in accordance with the principles of data protection by design and by default and the accessibility requirements. The Commission should design, develop and maintain the reference implementation software in compliance with the data protection requirements and principles laid down in Regulation (EU) 2018/1725 of the European Parliament and of the Councill, Regulation (EU) 2016/679 of the European Parliament and of the Council, and Directive (EU) 2016/680 of the European Parliament and of the Council, in particular the principles of data protection by design and by default as well as high level of cybersecurity. In particular, any natural or legal persons that take part in creating, maintaining or developing the national IT systems or the reference implementation software should be bound by these requirements and principles. The reference implementation software should also include appropriate technical measures and enable the organisational measures, including the necessary oversight for ensuring a level of security and interoperability which is appropriate for the exchange of information in the context of cross-border judicial procedures. In order to ensure interoperability with national IT systems, the reference implementation software should be able to implement the digital procedural standards, as defined in Regulation (EU) 2022/850 of the European Parliament and of the Council¹, for the corresponding legal instruments listed in Annexes I and II.

Regulation (EU) 2022/850 of the European Parliament and of the Council of 30 May 2022 on a computerised system for the cross-border electronic exchange of data in the area of judicial cooperation in civil and criminal matters (e-CODEX system), and amending Regulation (EU) 2018/1726 (OJ L 150, 1.6.2022, p. 1)

- (13) In order to provide swift, secure and efficient assistance to applicants, communication between competent authorities, such as courts and Central Authorities established under Council Regulation (EC) 4/2009⁹ and Council Regulation (EU) 2019/1111¹⁰, should, as a rule, be carried out through the decentralised IT system.
- (14) Transmission through the decentralised IT system could be impossible due to a disruption of the system. Any disruption of the system should be solved as soon as possible by the relevant Union bodies and the Member States.

The transmission could also be factually impossible due to the physical or technical a nature of what has to be transmitted, such as the transmission of physical/material evidence or the need to transmit the original document in paper format to assess its authenticity, or force majeure. Situations of force majeure, as a general rule, follow from unforeseeable and unavoidable events arising from a cause external to the competent authority.

Where the decentralised IT system is not used, communication should be carried out by the most appropriate alternative means. Such alternative means should entail, inter alia, transmission being performed as swiftly as possible and in a secure manner by other secure electronic means, by postal service *or by transmission in person where such transmission is possible*.

⁹ Council Regulation (EC) No 4/2009 of 18 December 2008 on jurisdiction, applicable law, recognition and enforcement of decisions and cooperation in matters relating to maintenance obligations (OJ L 7, 10.1.2009, p. 1–79).

¹⁰ Council Regulation (EU) 2019/1111 of 25 June 2019 on jurisdiction, the recognition and enforcement of decisions in matrimonial matters and the matters of parental responsibility, and on international child abduction (OJ L 178, 2.7.2019, p. 1).

(15)The decentralised IT system should be used by default in the communication between competent authorities. However, for the purposes of ensuring the flexibility of judicial cooperation, other means of communication could be more appropriate *in certain* situations. This could be appropriate when the competent authorities need direct personal communication and in particular for direct communication between courts under Regulation (EU) 2019/1111 and Regulation (EU) 2015/848 of the European Parliament and of the Council, as well as for direct communication between competent authorities under Council Framework Decisions 2005/214/JHA, 2006/783/JHA, 2008/909/JHA, 2008/947/JHA, 2009/829/JHA, Directive 2014/41/EU or Regulation (EU) 2018/1805 where the communication between the competent authorities could be carried out by any *means or any appropriate means*. In such cases, *competent authorities could use* less formal communication means, such as e-mail. This could also be appropriate when the communication involves handling of sensitive data or when the conversion of voluminous documentation into electronic form imposes a disproportionate administrative burden on the sending competent authority.

Considering that competent authorities deal with sensitive data, security and reliability of the information exchange should always be ensured when selecting the appropriate means of communication. The decentralised IT system should always be considered the most appropriate means of exchanging forms established pursuant to the legal acts listed in Annexes I and II of this Regulation. However, forms could be exchanged by other means in cases where the competent authorities of different Member States are present at the same location in a Member State for the purpose of assisting in the execution of judicial cooperation procedures under the legal acts listed in Annex II, if it is necessary due to the urgency of the matter, such as in situations under Directive 2014/41/EU where the issuing authority assists in the execution of the European Investigation Order in the executing State or where competent authorities of different Member States coordinate judicial cooperation procedures under the legal acts listed in Annex II at a physical meeting.

- (16) In relation to the components of the decentralised IT system, which are under the responsibility of the Union, *in accordance with the security requirements established by Regulation (EU) 2022/850 of the European Parliament and of the Council*, the entity managing the system's components, should have sufficient resources in order to ensure their proper functioning.
- (17) For the purpose of facilitating access of natural and legal persons to the competent authorities *in civil and commercial matters*, this Regulation should establish an access point at Union level (European electronic access point), as part of the decentralised IT system **and through which they** should be able to file claims, launch requests, send and receive procedurally relevant information, *including request and receive digitalised case files or documents therein*, and communicate with the competent authorities, **and there their representative do so on their behalf**, *in the instances covered by* this Regulation *or be served with judicial or extra-judicial documents*. The European electronic access point should be hosted on the European e-Justice Portal, which serves as a one-stop-shop for judicial information and services in the Union.

- (18a) The right to legal aid or legal assistance as provided by Union and national law, in particular the right to legal aid as established by Council Directive 2003/8/EC², and Council Regulations (EC) No 4/2009³, (EU) No 650/2012⁴ and (EU) 2019/1111⁵ should apply. When using the European electronic access point, natural and legal persons should be able to access relevant information on the e-Justice Portal through links on the European electronic access point.
- In the context of the communication of natural and legal persons with competent authorities (19) in civil and commercial matters in cross-border cases, electronic communication should be used as an alternative to the existing means of communication, *including national ones*, without affecting how natural or legal persons communicate with their national authorities, in accordance with national law. In case of communication of legal persons with competent authorities, the use by default of electronic means should be encouraged. Notwithstanding, to ensure that access to justice through digital means does not contribute to *a* further widening of the digital divide, the choice of the means of communication between electronic communication, as provided by this Regulation, and other means of communication should be left to the discretion of the individuals concerned. This is particularly important in order to cater for the specific circumstances of **those who could** lack the requisite technical means or digital skills to access digital services and those with disabilities, as the Member States and the Union have committed themselves to taking appropriate measures in accordance with the United Nations Convention on the Rights of Persons with Disabilities.

Directive 2002/8/CE du Conseil du 27 janvier 2003 visant à améliorer l'accès à la justice dans les affaires transfrontalières par l'établissement de règles minimales communes relatives à l'aide judiciaire accordée dans le cadre de telles affaires (OJ L 26, 31.1.2003, p. 41)

³ Council Regulation (EC) No 4/2009 of 18 December 2008 on jurisdiction, applicable law, recognition and enforcement of decisions and cooperation in matters relating to maintenance obligations (OJ L 7, 10.1.2009, p. 1)

⁴ Regulation (EU) No 650/2012 of the European Parliament and of the Council of 4 July 2012 on jurisdiction, applicable law, recognition and enforcement of decisions and acceptance and enforcement of authentic instruments in matters of succession and on the creation of a European Certificate of Succession (OJ L 201, 27.7.2012, p. 107)

⁵ Council Regulation (EU) 2019/1111 of 25 June 2019 on jurisdiction, the recognition and enforcement of decisions in matrimonial matters and the matters of parental responsibility, and on international child abduction (recast) (OJ L 178, 2.7.2019, p. 1)

- (20) In order to enhance electronic cross-border communication and transmission of documents through the decentralised IT system, *including through* the European electronic access point , those documents should not be denied legal effect and should not be considered inadmissible in the proceedings solely on the grounds that they are in electronic form. However, that principle should be without prejudice to the assessment of the legal effects or the admissibility of those documents, which *could* constitute evidence in accordance with national law.
- (21-a) In order to facilitate oral hearings in proceedings in civil, commercial and criminal matters with cross-border implications, this Regulation should provide for the optional use of videoconferencing or other distance communication technology.
- (21) Videoconferencing or other distance communication technology should allow the competent authority to authenticate the persons to be heard, and should enable visual, audio and oral communication during the hearing; a mere phone call should not be considered an appropriate distance communication technology for oral hearings. The technology used should meet applicable standards for the protection of personal data, of the confidentiality of communications and of data security, irrespective of the type of hearing for which they are used.

- (21a) Conducting a hearing through videoconferencing or other distance communication technology should not be refused solely based on the non-existence of national rules governing the use of distance communication technology. In such cases the most appropriate rules available under the national law, such as rules for taking of evidence, should apply mutatis mutandis.
- (21b) The right to interpretation should not be affected by this Regulation and the videoconferencing or other distance communication technology should allow for the use of interpretation services.
- (21c) In order to facilitate oral hearings in proceedings in civil and commercial matters with cross-border implications, this Regulation should provide for the optional use of videoconferencing or other distance communication technology for the participation of the parties or their representatives in such hearings, subject to the availability of the relevant technology, the possibility for the parties to submit an opinion on the use of such technology and the appropriateness of the use of such technology in the specific circumstances of the case. This Regulation does not preclude persons assisting a party and public prosecutors in civil and commercial matters from also attending the hearing through videoconferencing or other distance communication technology, in accordance with the applicable national law.
- (21d) The procedure for initiating and conducting hearings through videoconferencing or other distance communication technology should be governed by the law of the Member State where the proceedings take place in civil and commercial matters. Where the recording of hearings is provided for under the national law of the Member State conducting the hearing in civil or commercial matters, the parties should be informed of this circumstance, and, where provided for, of their possibility to refuse the recording.

- (21e) When deciding whether to allow the participation of the parties and their representatives in a hearing in civil and commercial matters through videoconferencing or other distance communication technology, the competent authority should choose an appropriate method for exploring the opinions of the parties in accordance with national procedural law.
- (21f) Where a competent authority in proceedings in civil or commercial matters has decided to allow the participation of at least one of the parties or other persons in a hearing through videoconferencing, that competent authority should ensure that these persons have access to that videoconference. In particular, the competent authority should send these persons a link to that videoconference and provide technical assistance. For example, the competent authority should provide instructions about the software which will be used and organise, where necessary, a technical test before the hearing. The competent authority should take into account the specific needs of persons with disabilities.
- (21g) Where a child participates in proceedings in civil or commercial matters, in particular as a party, under national law, the child could participate in the hearing through videoconferencing or other distance communication technology under this Regulation, taking into account their procedural rights. However, where the child is participating in the proceedings for the purpose of taking evidence in civil or commercial matters, for example where the child is to be heard as a witness, the child could also be heard through videoconferencing or other distance communication technology in accordance with Regulation (EU) 2020/1783.
- (21h) Where the competent authority requests the participation of a person for the purpose of taking evidence in civil or commercial matters, the participation of such person in the hearing through videoconferencing or other distance communication technology should be governed by Regulation (EU) 2020/1783.

- (21i) This Regulation should not apply to the use of videoconferencing or other distance communication technology in civil and commercial proceedings where such use is already foreseen in certain legal acts, listed in Annex I or in matters which do not have crossborder implications. This Regulation should also not apply to the use of videoconferencing or other distance communication technology in notarial authentication procedures.
- (21j) In criminal matters, the procedure for initiating and conducting hearings through videoconferencing or other distance communication technology should be governed by the law of the Member State which should conduct the videoconference. The Member State conducting the hearing through videoconferencing or other distance communication technology should be understood as the Member State requesting the videoconference.
- (21k) The rules under this Regulation on the use of videoconferencing or other distance communication technology for hearings in judicial cooperation procedures in criminal matters should not apply to hearings through videoconferencing or other distance communication technology for the purposes of taking evidence or of holding a trial which could result in a decision on the guilt or innocence of a suspect or accused person. This Regulation should be without prejudice to the Directive 2014/41/EU, the Convention on Mutual Assistance in Criminal Matters between the Member States of the European Union, and to the Council Framework Decision 2002/465/JHA.

- (211) In order to safeguard the right to a fair trial and the rights of defence, the suspect, accused or convicted person or affected persons in proceedings under the Regulation (EU) 2018/1805 of the European Parliament and of the Council, should give their consent on the use of videoconferencing or other distance communication technology for a hearing in judicial cooperation procedures in criminal matters. The competent authority could derogate from the requirement of consent of the suspect, accused, convicted or affected person only in exceptional circumstances when this is duly justified by serious threats to public security and public health, which are shown to be genuine and present or foreseeable. The use of an exemption in view of consent for videoconferencing should be limited to what is necessary and should fully respect the Charter. In the absence of consent such person should have the possibility to seek review in accordance with national law and in full compliance with the Charter.
- (21m) Where the rights of a suspect, accused, or convicted person are violated in the context of a hearing through videoconferencing or other distance communication technology, access to effective remedy should be guaranteed in accordance with Article 47 of the Charter of Fundamental Rights of the European Union. Access to effective remedy should also be guaranteed for affected persons other than a suspect, accused or convicted person in the context of their hearing through videoconferencing or other distance communication technology in proceedings under Regulation (EU) 2018/1805 of the European Parliament and of the Council.
- (21n) The competent authorities responsible for the hearing through videoconferencing or other distance communication technology in criminal matters should ensure that communication between the suspect, accused, convicted person, or the affected person in proceedings under the Regulation (EU) 2018/1805 of the European Parliament and of the Council, and their lawyer both immediately before and during the hearing is confidential in accordance with the applicable national law.

- (210) Where a hearing through videoconferencing or other distance communication technology is organised in criminal matters, the requested competent authority should ensure that the suspect, accused or convicted person or the affected person in proceedings under Regulation (EU) 2018/1805 of the European Parliament and of the Council, including persons with a disability, have access to the necessary infrastructure to use videoconferencing or other distance communication technology. This should include a responsibility to provide access for example, to the premises where the hearing should be held and to the available technical equipment. Where technical equipment is not available on premises of the requested competent authority, it should be possible for that authority to make the practical arrangements by organising the hearing at the premises of another authority for this purpose if possible according to national procedures.
- (23) Regulation (EU) No 910/2014 of the European Parliament and of the Council¹³ sets up a common Union regulatory framework for recognition of electronic identification means and electronic trust services (electronic signatures, electronic seals, time stamps, electronic delivery services and website authentication) that are recognised across borders as having the same legal status as their physical equivalents. Therefore, this Regulation should apply the e-IDAS trust services for the purposes of digital communication.

Regulation (EU) No 910/2014 of the European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC (OJ L 257, 28.8.2014, p. 73–114).

- (23a) Where a document transmitted as part of the electronic communication under this Regulation requires a seal or signature, a qualified electronic seal or signature as defined in Regulation (EU) No 910/2014 should be used by competent authorities and a qualified electronic signature or electronic identification should be used by natural or legal persons. However, this Regulation should not affect the formal requirements applicable to documents produced in support of a request, which could be digital originals or certified copies. It should also be without prejudice to national law regarding the conversion of documents and to any requirements regarding the authenticity, accuracy, reliability, credibility and appropriate legal form of the documents or information, except with regard to the conditions related to the communication by digital means expressly introduced by this regulation.
- (24) For the purposes of facilitating payment of fees in cases with cross-border implications falling under the scope of the Union legal acts in civil and commercial matters, *the technical means of* electronic payment of fees should *comply with the applicable rules on accessibility.* Payment methods widely available throughout the Union, such as credit cards, debit cards, e-wallet and bank transfers *should be possible in an online environment and accessible through the European electronic access point.*

(25) It is necessary, for the purposes of ensuring the full attainment of the objectives of this Regulation and for the alignment of the existing Union legal acts in civil, commercial and criminal matters with this Regulation, that amendments are introduced in the following legal acts: Regulation (EC) No 1896/2006 of the European Parliament and of the Council¹⁴, Regulation (EC) No 861/2007 of the European Parliament and of the Council¹⁵, Regulation (EU) *No 606/2013 of the European Parliament and of the Council¹⁶, Regulation (EU)* No 655/2014 of the European Parliament and of the Council¹⁷, Regulation (EU) 2018/1805 of the European Parliament and of the Council¹⁸. Those amendments seek to ensure that communication takes place in accordance with the rules and principles set out in this regulation. Amendments to Directives and Framework Decisions in civil, commercial and criminal matters are enacted in a Directive of the European Parliament and the Council .../... [Amending Directive]¹⁹.

Regulation (EU) 2018/1805 of the European Parliament and of the Council of 14 November 2018 on the mutual recognition of freezing orders and confiscation orders (OJ L 303, 28.11.2018, p. 1).

¹⁹ Directive of the European Parliament and of the Council on amending Council Directive 2003/8/EC, Council Framework Decisions 2002/465/JHA, 2002/584/JHA, 2003/577/JHA, 2005/214/JHA, 2006/783/JHA, 2008/909/JHA, 2008/947/JHA, 2009/829/JHA and 2009/948/JHA, Directive Directives 2011/99/EU and Directive 2014/41/EU of the European Parliament and of the Council, as regards digitalisation of judicial cooperation.

- (26) In accordance with paragraphs 22 and 23 of the Interinstitutional Agreement of **13** April 2016 on Better Law-Making²⁰, the Commission should evaluate this Regulation on the basis of the information collected through specific monitoring arrangements, *including quantitative and qualitative assessments* for each of the legal acts, listed in Annexes I and II to this Regulation in order to assess the actual effects of this Regulation *on the ground, particularly to examine the impact on the efficiency and effectiveness of the digitalisation of the cross border judicial cooperation,* and the need for any further action.
- (27) The reference implementation software developed by the Commission as a back-end system should programmatically collect the data necessary for monitoring purposes and such data should be transmitted to the Commission. Where Member States choose to use a national IT system instead of the reference implementation software developed by the Commission, such a system could be equipped to programmatically collect those data and, in that case, those data should be transmitted to the Commission. The e-CODEX connector could also be equipped with a feature allowing retrieval of relevant statistical data.

(28) In *cases where data on the number of hearings* where *videoconferencing was used* cannot be collected automatically, and for the purpose of *limiting the additional* administrative burden of data collection, each Member State should designate at least one court or competent authority for the purpose of establishing a monitoring sample. The court or competent authority designated in this way should be tasked with collecting and providing the Commission with *such* data on its own *hearings* which should serve to provide an estimate on the level of a given Member State of the data necessary for the evaluation of this Regulation. The designated court or *authority* should be *competent to conduct hearings through videoconference in accordance with this* Regulation *l*. In areas where authorities other than courts or prosecutors are considered as competent authorities within the meaning of this Regulation, such as notaries, the designated monitoring sample should be representative of their implementation of the Regulation as well.

(29) The application of this Regulation is without prejudice to the separation of powers and the independence of the judiciary in the Member States, as well as to procedural rights as enshrined in the Charter of Fundamental Rights of the European Union²¹ and Union law, such as the procedural rights directives²², and in particular to the right to an interpreter, the right of access to a lawyer, the right of access to the case file, the right to legal aid, and the right to be present at the trial.

²¹ Charter of Fundamental Rights of the European Union (OJ C 326, 26.10.2012, p. 391-407). 22 Directive 2010/64/EU of the European Parliament and of the Council of 22 May 2012 on the right to interpretation and translation in criminal proceedings (OJ 2010 L 280/1) Directive 2012/13/EU of the European Parliament and of the Council of 22 May 2012 on the right to information in criminal proceedings (OJ 2012 L 142/1); Directive 2013/48/EU of the European Parliament and of the Council of 22 October 2013 on the right of access to a lawyer in criminal proceedings and in European arrest warrant proceedings, and on the right to have a third party informed upon deprivation of liberty and to communicate with third persons and with consular authorities while deprived of liberty (OJ 2013 L 294/1); Directive (EU) 2016/343 of the European Parliament and of the Council of 9 March 2016 on the strengthening of certain aspects of the presumption of innocence and of the right to be present at the trial in criminal proceedings (OJ 2016 L 65/1);- Directive (EU) 2016/800 of the European Parliament and of the Council of 11 May 2016 on procedural safeguards for children who are suspects or accused persons in criminal proceedings (OJ 2016 L 132/1); Directive (EU) 2016/1919 of the European Parliament and of the Council of 26 October 2016 on legal aid for suspects and accused persons in criminal proceedings and for requested persons in European arrest warrant proceedings (OJ L 297, 4.11.2016).

- (30) Regulation (EU) 2016/679 of the European Parliament and the Council , Directive (EU) 2016/680²³ of the European Parliament and the Council and Regulation (EU) 2018/1725 of the Parliament and of the Council²⁴, apply to the processing of personal data carried out in the decentralised IT system. In order to clarify the responsibility for the processing of personal data sent or received through the decentralised IT system, this Regulation should indicate the controller of the personal data. For this purpose, each sending or receiving entity should be regarded as having determined the purpose and means of the personal data processing separately.
- (31) In order to ensure uniform conditions for the implementation of this Regulation as regards the establishment of the decentralised IT system, implementing powers should be conferred on the Commission. Those powers should be exercised in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council²⁵. *The implementing acts should enable Member States to adapt their relevant national IT systems for connecting to the decentralised IT system.*

²³ Directive (EU) 2016/680 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data by competent authorities for the purposes of the prevention, investigation, detection or prosecution of criminal offences or the execution of criminal penalties, and on the free movement of such data, and repealing Council Framework Decision 2008/977/JHA (OJ L 119, 4.5.2016, p. 89).

Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data and repealing Regulation (EC) No 45/2001 and Decision No 1247/2002/EC (OJ L 295, 21.11.2018, p. 39–98).

Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16
 February 2011 laying down the rules and general principles concerning mechanisms for control by the Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13).

- (32) Since harmonised digitalisation of cross-border judicial cooperation cannot be sufficiently achieved by the Member States acting alone, for reasons such as no guarantee as to the interoperability of IT systems of Member States and Union agencies and bodies, but can rather, by reason of coordinated Union action, be better achieved at Union level, the Union could adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.
- (33) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.
- (34) (34) In accordance with Articles 1, 2 and 4a(1) of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and without prejudice to Article 4 of that Protocol, Ireland is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.

(35) The European Data Protection Supervisor was consulted in accordance with Article 42(1) of Regulation (EC) No 2018/1725 of the European Parliament and of the Council and delivered an opinion on 25 January 2022,

HAVE ADOPTED THIS REGULATION:

CHAPTER I

GENERAL PROVISIONS

Article 1

Subject matter and scope

1. This Regulation establishes a *uniform* legal framework for *the use of* electronic communication between competent authorities in judicial cooperation procedures in civil, commercial and criminal matters and for *the use of* electronic communication between natural or legal persons and competent authorities in judicial procedures in civil and commercial matters.

In addition, it lays down rules on:

- (a) the use of videoconferencing or other distance communication technology for purposes other than taking of evidence under Regulation (EU) 2020/1783;
- (b) the application of electronic *signatures and electronic seals*;
- (c) the legal effects of electronic documents;
- (d) electronic payment of fees.
- 2. This Regulation shall apply to electronic communication in judicial cooperation procedures in civil, commercial and criminal matters, as specified in Articles 3 and 4, and hearing through videoconferencing or other means of distance communication technology in civil, commercial and criminal matters, as specified in Articles 7 and 8.
 - (a)
 - (b)
 - (c)

Article 2

Definitions

For the purposes of this Regulation, the following definitions apply:

- (1) *"competent authorities"* means courts, public prosecutors' offices, central authorities and other competent authorities as defined in, designated or notified in accordance with the legal acts listed in Annexes I and II, as well as Union agencies and bodies taking part in judicial cooperation procedures in accordance with the provisions of the legal acts listed in Annex II. For the purposes of Article 7 of this Regulation, competent authority also means any court or other authority competent under national or Union law to conduct hearings through videoconferencing or other distance communication technology in civil and commercial matters. For the purposes of Article 8 of this Regulation, competent authority also means any court or other authority taking part in procedures laid down in the legal acts in Annex II;
- (2) "electronic communication" means digital exchange of information over the internet or another electronic communication network;
- (3)
- (4) "decentralised IT system" means a network of IT systems and interoperable access points, operating under the individual responsibility and management of each Member State, Union agency or body that enables the secure and reliable cross-border exchange of information;

- (5) "European electronic access point" "means a portal which is accessible to natural and legal persons or their representatives throughout the Union, connected to an interoperable access point in the context of the decentralised IT system;
- (6) "fees" means payments levied by competent authorities in the context of the proceedings under the legal acts listed in Annex I.
- (6a) "videoconferencing" means audio-visual transmission technology that allows two-way and simultaneous communication of image and sound, enabling visual, audio and oral interaction.

CHAPTER II

COMMUNICATION BETWEEN COMPETENT AUTHORITIES

Article 3

Means of communication between competent authorities

1. Communication pursuant to the legal acts listed in Annex I between competent authorities *of different Member States, and pursuant to* the legal acts listed in Annex I II between *competent authorities of different Member States and between a national competent authority and a Union agency or body*, including the exchange of forms established by *those* acts, shall be carried out through a secure, *efficient* and reliable decentralised IT system.

- 2. *The transmission may be carried out by competent authorities by alternative means* where electronic communication in accordance with paragraph 1 is not possible due to:
 - *a)* the disruption of the decentralised IT system,
 - b) the physical or technical nature of the transmitted material, or
 - c) force majeure.

For the purposes of the first subparagraph, the competent authorities shall ensure that
the alternative means of communication used are the swiftest and most appropriate and
that they ensure a secure and reliable exchange of information.

- 3. In addition to the exceptions referred to in paragraph 2, where the use of the decentralised IT system is not appropriate in **a** given situation any other means of communication may be used. Competent authorities shall ensure that the exchange of information under this paragraph occurs in a secure and reliable manner.
- 4. Paragraph 3 of this Article shall not apply to the exchange of forms provided by the instruments listed in *Annexes* I and *II*.

In cases where the competent authorities of different Member States are present at the same location in a Member State for the purpose of assisting in the execution of judicial cooperation procedures under the legal acts listed in Annex II, they may exchange the forms through other appropriate means if it is necessary due to the urgency of the matter. Competent authorities shall ensure that the exchange of forms under the second sentence of this paragraph occurs in a secure and reliable manner

- 4a. This Article is without prejudice to applicable procedural provisions in Union and national law on admissibility of documents, other than requirements related to the means of communication.
- 5. Each Member State may decide to use the decentralised IT system for communication between its national authorities in cases falling under the scope of the legal acts listed in Annex I or II.
- 6. Union agencies or bodies may decide to use the decentralised IT system for communication within the agency or body in cases falling under the scope of the legal acts listed in Annex II.

CHAPTER III

COMMUNICATION BETWEEN NATURAL OR LEGAL PERSONS AND COMPETENT AUTHORITIES IN CIVIL AND COMMERCIAL MATTERS

Article 4

European electronic access point

1. A European electronic access point shall be established on the European e-Justice Portal

- *1a. The European electronic access point may be used for electronic communication between natural or legal persons or their representatives and competent authorities in the following instances:*
 - (a) procedures provided for in Regulation (EC) No 1896/2006, Regulation (EC) No 861/2007 and Regulation (EU) No 655/2014.
 - (b) procedures provided for in Regulation (EC) No 805/2004;
 - (c) proceedings for recognition, declaration of enforceability or refusal of recognition provided for in Regulation (EC) 4/2009, Regulation (EU) 650/2012, (EU) 1215/2012, Regulation (EU) 606/2013, Regulation (EU) 2016/1103, Regulation (EU) 2016/1104, Regulation (EU) 2019/1111.
 - (d) procedures related to the issuance, rectification and withdrawal of:
 - extracts provided for in Regulation (EC) 4/2009,
 - the European Successions Certificate and the attestations provided for in Regulation (EU) 650/2012,
 - certificates provided for in Regulation (EU) 1215/2012,
 - certificates provided for in Regulation (EU) 606/2013,
 - attestations provided for in Regulation (EU) 2016/1103,

_

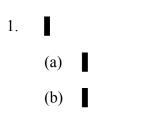

attestations provided for in Regulation (EU) 2016/1104,

- certificates provided for in Regulation (EU) 2019/1111;
- (e) lodging of a claim by a foreign creditor in insolvency proceedings under Article 53 of Regulation (EU) 2015/848;
- (f) communication between natural or legal persons or their representatives with the Central Authorities under Regulation (EC) 4/2009 and Regulation (EU) 2019/1111 or the competent authorities under Chapter IV of Directive 2003/8/EC.
- The Commission shall be responsible for the technical management, development, accessibility, maintenance, security and *free of charge technical user* support of the European electronic access point.
- 3. The European electronic access point shall contain information for natural and legal persons on their right to legal aid, including in cross-border proceedings. It shall also allow for their representative to act on their behalf. The European electronic access point shall allow natural and legal persons, or their representatives, in the instances referred to in paragraph 2, to file claims, launch requests, send and **receive** procedurally relevant information and communicate with the competent authorities or be served with judicial or extrajudicial documents.

Communication through the European electronic access point shall comply with the requirements of Union law and national law of the relevant Member State, in particular with regard to form, language and representation.

3a. Competent authorities shall accept electronic communication transmitted through the European electronic access point in the instances referred to in paragraph 1a.

- 3b. Competent authorities shall communicate with natural and legal persons or their representatives in the instances referred to in paragraph 1a or may serve documents on them through the European electronic access point, only where that natural or legal person or their representative gave prior express consent to the use of that means of communication or method of service. Each consent shall be specific to the procedure in which it is given and shall be given separately for the purposes of communication and service of documents. Where a natural or legal person intends to use the European electronic access point on their own initiative for communication in proceedings, they shall be able to indicate their consent in that initial communication.
- 3d. The European electronic access point shall be such as to ensure the identification of the users.

- 2.

CHAPTER IV

HEARING THROUGH VIDEOCONFERENCING OR OTHER DISTANCE COMMUNICATION TECHNOLOGY

Article 7

Participation in a hearing through videoconferencing or other distance communication technology in civil and commercial matters

- Without prejudice to specific provisions regulating the use of videoconferencing or other distance communication technology in proceedings under *Regulations (EU) 2020/1783, (EC)* 861/2007 and (EU) 655/2014, and upon request of a party or their representative or, if applicable according to national law, on its own motion in proceedings in civil and commercial matters where one of the parties is present in another Member State, the competent authority shall decide on the participation of the parties and their legal representatives in a hearing through videoconferencing or other distance communication technology, based on
 - (a) *the availability of such technology,*
 - (b) the **opinion of the** parties to the proceedings on the use of videoconferencing or other distance communication technology , and

- *(ba) the appropriateness of the use of such technology in the specific circumstances of the case.*
- (1a) The competent authority conducting the hearing will ensure that the parties and their representatives, including persons with a disability, have access to the videoconference.
- (1c) Without prejudice to this regulation, the procedure for holding a hearing through videoconferencing or other distance communication technology shall be regulated by the national law of the Member State conducting the hearing.
- 2.
- 3.
- 4.

FN

- 4a. Where the recording of hearings is provided for under the national law of the Member State where the procedure takes place, the same rules shall apply also to hearings through videoconferencing or other distance communication technology. Member States where the proceedings take place shall take appropriate measures in accordance with national law to ensure that such records are secured and not publicly disseminated.
- 5.

Hearing through videoconferencing or other distance communication technology in criminal

matters

- Where the competent authority of a Member State requests the hearing of a suspect, accused, convicted or affected person, as defined in Article 2, point 10 of the Regulation (EU)
 2018/1805 of the European Parliament and of the Council, other than a suspect, accused or convicted person, present in another Member State in proceedings under :
 - (-a) Council Framework Decision 2002/584/JHA, in particular Article 18(1)(a) thereof,
 - (-b) Council Framework Decision 2008/909/JHA, in particular Article 6(3) thereof,
 - (-c) Council Framework Decision 2008/947/JHA, in particular Article 17(4) thereof,
 - (-d) Council Framework Decision 2009/829/JHA, in particular Article 19(4) thereof,
 - (-e) Directive 2011/99/EU, in particular Article 6(4) thereof,

- (-f) Regulation (EU) 2018/1805, in particular Article 33(1) thereof,
- (-g) the competent authority of the other Member State shall allow their participation in the hearing through videoconferencing or other distance communication technology, provided that:
- (a)
- (b) the particular circumstances of the case justify the use of such technology; *and*
- (c) the suspect, accused or convicted person or an affected person expressed consent on the use of videoconferencing or other distance communication technology for that hearing. Before expressing consent on the use of videoconferencing or other distance communication technology the suspect or the accused person shall have the possibility to seek the advice of a lawyer in accordance with Directive 2013/48/EU. Without prejudice to the principle of a fair trial including the right to legal remedy according to national procedural law, the consent of these persons may not be required where the participation in a hearing in person poses a serious threat to public security or public health, which is shown to be genuine and present or foreseeable.
- (ca) The consent must be given voluntarily and unequivocally, and the requesting competent authority has to verify that consent prior to starting such hearing.
 Verification of the consent shall be recorded in the records of the hearing in accordance with the national law of the requesting Member State.
- (cc) The requested competent authority will ensure that persons provided for in paragraph 1, including persons with a disability have access to the necessary infrastructure to use videoconferencing or other distance communication technology.

- (cf) Competent authorities shall provide the person to be heard with information about the procedure for conducting a hearing through videoconferencing or other distance communication technology, as well as about their procedural rights, including the right to interpretation and right of access to a lawyer before the consent is given.
- 2. **This** *Article* is without prejudice to **other** *Union legal acts allowing for* the use of videoconferencing or other distance communication technology in **criminal matters**.
- Subject to this Regulation, the procedure for conducting a *hearing through videoconferencing or other distance communication technology* shall be regulated by the national law of the *requesting* Member State *. The requesting and requested competent authorities shall agree on practical arrangements of the hearing*
- 4. The confidentiality of communication between *a suspect*, accused or convicted *person or an affected person* and their lawyer before and during the hearing through videoconferencing or other distance communication technology shall be ensured *in accordance with the applicable national law*.

- 5. Before hearing a child through videoconferencing or other distance communication technology, holders of parental responsibility as defined in Article 3, point 2 of Directive (EU) 2016/800 of the European Parliament and of the Council²⁶¹ or another appropriate adult as referred to in Article 5(2) of that Directive shall be informed promptly. When deciding whether to hear a child through videoconferencing or other distance communication technology, the competent authority shall take into account the best interests of the child.
- 6. Where the recording of hearings is provided for under the national law of a Member State for domestic cases, the same rules shall apply also to hearings through videoconferencing or other distance communication technology in cross-border cases. *The requesting* Member State shall take appropriate measures *in accordance with national law* to ensure that such records are secured and not publicly disseminated.
- 7. A suspect, accused, convicted or affected person shall, in the event of a breach of the requirements or guarantees provided for in this article, have the possibility to seek effective remedy, in accordance with national law and in full respect of the Charter.

CHAPTER V

TRUST SERVICES, LEGAL EFFECTS OF ELECTRONIC DOCUMENTS AND ELECTRONIC PAYMENT OF FEES

Article 9

Electronic signatures and electronic seals

- The general legal framework for the use of trust services set out in Regulation (EU) No 910/2014 shall apply to the electronic communication under this Regulation.
- 2. Where a document transmitted as part of the electronic communication under Article 3 of this Regulation requires *a seal or signature in accordance with the legal acts listed in Annexes I and II, the document shall feature a* qualified electronic *seal* or qualified electronic *signature* as defined in Regulation (EU) No 910/2014.
- 3. Where a document transmitted as part of the electronic communication *in the instances referred to in* Article 4(2) of this Regulation requires *the* signature *of the person transmitting the document*, *that person shall fulfil this requirement by:*
 - a) electronic identification with an assurance level as defined in Article 8(2)(c) of Regulation (EU) No 910/2014; or

b) a qualified electronic signature as defined in Article 3(12) of Regulation (EU) No 910/2014.

Article 10

Legal effects of electronic documents

Documents transmitted as part of electronic communication shall not be denied legal effect or be considered inadmissible in the context of cross-border judicial procedures under the legal acts listed in **Annexes** I and II solely on the ground that they are in electronic form.

Article 11

Electronic payment of fees

- Member States shall provide for the possibility of electronic payment of fees, including from Member States other than where the competent authority is situated.
- 2. The technical means for the electronic payment of fees shall comply with applicable rules on accessibility. Where the available means of electronic payment of fees so allow, they shall be accessible through the European electronic access point.

CHAPTER VI

PROCEDURAL PROVISIONS AND EVALUATION

Article 12

Adoption of implementing acts by the Commission

- 1. The Commission shall adopt implementing acts *on* the decentralised IT system *referred to in Article 3(1) and the European electronic access point referred to in Article 4(1)*, setting out the following:
 - (a) the technical specifications *on* the methods of communication by electronic means for the purposes of the decentralised IT system;
 - (b) the technical specifications for communication protocols;
 - (c) the information security objectives and relevant technical measures ensuring minimum information security standards and a high level of cybersecurity for the processing and communication of information within the decentralised IT system;
 - (d) the minimum availability objectives and possible related technical requirements for the services provided by the decentralised IT system;
 - (da) digital procedural standards as defined in Article 3(9) of Regulation (EU) 2022/850;

- (f) an implementation timetable laying down, inter alia, the dates of the availability of the reference implementation software, referred to in Article 13, its installation by the competent authorities, and, where relevant, completion of the adjustments to national IT systems necessary for ensuring compliance with the requirements referred to in points (a) - (e); and
- (g) the technical specifications for the European electronic access point, including the means used for the electronic identification of the user at the assurance level as defined in Article 8(2)(c) of Regulation (EU) 910/2014 and the retention period for storing information and documents.
- 2. The implementing acts referred to in paragraph 1 of this Article shall be adopted in accordance with the examination procedure referred to in Article 16.
- 3. The implementing acts *referred to in paragraph 1 of this Article* shall be adopted by
 - (a) [2 years after the entry into force of this Regulation] for the legal acts listed in Annex
 I, points 3 and 4 and the legal acts listed in Annex II, points 2, 10 and 11,
 - (b) [3 years after the entry into force of this Regulation] for the legal acts listed in Annex
 I, points 1, 7a, 8 and 9 and the legal act listed in Annex II, point 6 and 9a,

- (c) [4 years after the entry into force of this Regulation] for the legal acts listed in Annex
 I, points 6, 10, 11 and the legal acts listed in Annex II, points 3, 4, 5 and 9, and
- (d) [5 years after the entry into force of this Regulation] for the legal acts listed in Annex I, points 2, 5, 7 and 12 and the legal acts listed in Annex II, points 7 and 8.
- 4.
- 5.
- 6.

Article 12a

Training

1. Member States shall ensure that the justice professionals concerned and competent authorities are offered the necessary training for efficient use of the decentralised IT system and for the appropriate use of videoconferencing or other distance communication technology. Without prejudice to judicial independence and differences in the organisation of the judiciary across the Union and with due respect for the independence of the legal profession, Member States shall encourage such training for judges, prosecutors and other justice professionals.

- 2. The Commission shall ensure that the training of justice professionals in the efficient use of the decentralised IT system is among the training priorities supported by the Union financial programs.
- 3. Member States shall encourage the authorities to share best practices regarding videoconferencing in order to reduce costs and increase efficiency.
- 4. The Commission shall inform Member States on the possibilities to apply for grants to support the activities referred to in paragraphs 1 and 3, under the relevant Union financial programmes.

Reference implementation software

- 1. The Commission shall be responsible for the creation, *accessibility*, maintenance and development of reference implementation software which Member States may choose to apply as their back-end system instead of a national IT system. The creation, maintenance and development of the reference implementation software shall be financed from the general budget of the Union.
- 2. The Commission shall provide, maintain and support on a free-of-charge basis the reference implementation software.
- 2a. The reference implementation software shall offer a common interface to communicate with other national IT systems.

Costs of the decentralised IT system, European electronic access point and national IT systems

- Each Member State or entity operating an authorised e-CODEX access point as defined in Article 3(4) of Regulation (EU) 2022/850 of the European Parliament and of the Council shall bear the costs of the installation, operation and maintenance of the decentralised IT system's access points for which they are responsible.
- 2. Each Member State or entity operating an authorised e-CODEX access point as defined in Article 3(4) of Regulation (EU) 2022/850 of the European Parliament and of the Council shall bear the costs of establishing and adjusting its relevant national or, where applicable, other IT systems to make them interoperable with the access points, and shall bear the costs of administering, operating and maintaining those systems.
- 3. *The Commission shall inform* Member States *on the possibilities to apply* for grants to support the activities referred to in paragraphs 1 and 2, under the relevant Union financial programmes.
- 4. Union agencies and bodies shall bear the costs of the installation, operation and maintenance of the components comprising the decentralised IT system under their responsibility.
- 5. Union agencies and bodies shall bear the costs of establishing and adjusting their casemanagement systems to make them interoperable with the access points, and shall bear the costs of administering, operating and maintaining those systems.
- 6. The Commission shall bear all costs related to the European electronic access point.

Protection of information transmitted

- The competent authority shall be regarded as *a* controller within the meaning of Regulation (EU) 2016/679, Regulation (EU) 2018/1725 or Directive (EU) 2016/680 with respect to the processing of personal data sent or received through the decentralised IT system.
- The Commission shall be regarded as a controller within the meaning of Regulation (EU)
 2018/1725 with respect to personal data processing by the European electronic access point.
- 3. Competent authorities shall ensure that information transmitted in the context of cross-border judicial procedures to another competent authority, which is deemed confidential *under the law of* the Member State from which the information is being sent, *shall be subject to the rules on confidentiality laid down by Union and* the national law of the Member State to which the information is being sent.

Committee procedure

- The Commission shall be assisted by a committee. That committee shall be a committee within the meaning of Regulation (EU) No 182/2011²⁷.
- 2. Where reference is made to this paragraph, Article 5 of Regulation (EU) No 182/2011 shall apply.

Article 17

Monitoring and Evaluation

1. Four years after the date of entry into force of the implementing act referred to in Article 12(3)(d) and every five years thereafter, the Commission shall carry out an evaluation of this Regulation and present to the European Parliament and to the Council a report supported by information supplied by the Member States and collected by the Commission. It shall also include an assessment of the effect of electronic communication on the equality of arms in the context of cross-border civil and criminal proceedings. The Commission shall submit, if appropriate, a legislative proposal, obliging Member States to make videoconferencing or other distance communication technology available, specify the technology and interoperability standards and establish judicial cooperation for the purposes of providing the parties with an access to the infrastructure to use videoconferencing or other distance communication technology in the premises of the competent authorities in the Member State where the party is present.

²⁷ Regulation (EU) No 182/2011 of the European Parliament and of the Council of 16 February 2011 laying down the rules and general principles concerning mechanisms for control by Member States of the Commission's exercise of implementing powers (OJ L 55, 28.2.2011, p. 13–18).

- 2. Unless an equivalent notification procedure applies under other Union legal acts, the Member States shall provide the Commission on an annual basis with *the following* information relevant for the evaluation of the operation and application of this Regulation
 - (a) as of three years after the date of entry into force of each of the implementing acts referred to in Article 12(3), the costs incurred for establishing or adjusting their relevant national IT systems to make them interoperable with the access points,
 - (b) as of three years after the entry into force of the implementing act referred to in Article 12(3)(b), the length of the first instance judicial proceedings, from the reception of the application by the competent authority until the date of the decision, under the legal acts listed in Annex I points 3, 4 and 8, where available;
 - (ba) as of three years after the date of entry into force of each of the implementing acts referred to in Article 12(3), the length of time to transmit information on the decision on recognition and execution of a judgement or a judicial decision or, if not applicable, to transmit the results of the execution of such a judgement or a judicial decision, under the legal acts listed in points 2-8 and 9a-11 of Annex II, grouped by corresponding legal act, where available.
 - (bb) as of three years after the date of entry into force of each of the implementing acts referred to in Article 12(3), the number of requests transmitted through the decentralised IT system in accordance with Article 3(1) and (2), where available.

- (2a) For the purpose of establishing a sample, each Member State shall designate one or more competent authorities to collect the data on the number of hearings conducted by those authorities, where videoconferencing or other distance communication technology was used in accordance with Articles 7 and 8 which shall be provided to the Commission as of one year after the date of application of this Regulation.
- 3.
 - (a) (b)
- 4. The reference implementation software and, where equipped to do so, the national back-end system shall programmatically collect the data referred to in *points (b), (ba) and (bb)* of paragraph *2* and transmit them to the Commission on an annual basis.
- 4a. Member States shall make every endeavour to collect the data referred to in paragraph 2(b), (ba) and (bb).

Information to be communicated to the Commission

- Member States shall communicate by [six months after entry into force] to the Commission the following information with a view to making it available through the European e-Justice Portal:
 - (a) details of national IT portals, where applicable;
 - (b) a description of the national laws and procedures applicable to videoconferencing *in accordance with Articles 7 and 8*;
 - (c) information on fees due in *proceedings under the legal acts listed in Annex I*;
 - (d) details on the electronic payment methods available for fees due in cross-border cases;
 - (da) the authorities with competence under the legal acts listed in Annexes I and II, where they have not already been notified in accordance with those legal acts.

Member States shall communicate to the Commission any changes with regard to this information without delay.

Member States shall notify the Commission if they are in a position to apply Article 7 or 8 or operate the decentralised IT system earlier than required by this Regulation. The Commission shall make such information available electronically, in particular through the European e-Justice Portal.
