Implementing Regulation

**laying down rules for the application of Regulation (EU) 2023/956 of the European
Parliament and the Council as regards the establishment of default values**

**ANNEX I – Default values for goods imported into the customs territory of the Union,
except for electricity**

Where a country or territory is not explicitly listed, the default value for the respective good from the table “Other countries and territories” needs to be selected. Where a country or territory is explicitly listed but no value is provided or the relevant field shows “–”, the default value for the respective good from the table “Other countries and territories” needs to be selected.
