

23rd July 2025, Brussels

For the attention of:

Kaja Kallas

Vice-President of the European Commission and High Representative for Foreign Affairs and Security Policy

CC/ Cabinet of the High Representative

Dear High Representative,

We are writing to you today to demand immediate action is taken given the appalling humanitarian situation in Gaza and the continued Israeli attacks on Palestinians at aid distribution sites which have so far resulted in the deaths of over 1,000 people.

The agreement you announced with Israel last week has clearly delivered no tangible change in conditions on the ground as starvation and death continues. Children are now dying of starvation and the European Union is responding with weak words and no action.

We demand:

1. You immediately convene an emergency meeting of the Foreign Affairs Council in order to propose action against Israel.
2. You propose a full suite of sanctions against Israel for adoption at Council.
3. You propose sanctions on the Gaza Humanitarian Foundation and individuals within that organisation who share responsibility for the death and starvation we are seeing in Gaza.
4. You formally propose the measures you had previously presented following the review taken on Israel's compliance with Article 2.
5. You lobby Member States to implement a two-way arms embargo with Israel.

Let us be clear, history will not look kindly on the EU's silence and complicity in the face of starvation and genocide in Gaza and European citizens are using their voices to demand real action. As their elected representatives, we put it to you that there can be no more double standards, no more silence and no more complicity.

Every day we do not take action is another day where Palestinians in Gaza are left to starve or be killed. Action is needed now.

We look forward to your response.

Lynn Boylan MEP (The Left - Ireland)
