

2025/0180(COD)

24.7.2025

AMENDMENTS 411 - 429

Draft report
Inese Vaidere, Ville Niinistö
(PE775.677v01-00)

Phasing out Russian natural gas imports, improving monitoring of potential energy dependencies and amending Regulation (EU) 2017/1938

Proposal for a regulation
(COM(2025)0828 – C10-0123/2025 – 2025/0180(COD))

Agence Europe

Amendment 411
Dario Tamburrano, Danilo Della Valle

Proposal for a regulation
Annex I – point 1 – paragraph 1 – subparagraph 1 - table

Text proposed by the Commission

Name of the authority responsible for the preparation of the plan

Description of the gas system. It should include a description of:

- (i) the gas demand
- (ii) the supply mix *considering the dependence on Russian supply*.

Amendment

Name of the authority responsible for the preparation of the plan

Description of the gas system. It should include a description of:

- (i) the gas demand
- (ii) the supply mix *imported from each country with indication of the share of total gas imports*.

Or. en

Amendment 412
Dario Tamburrano, Danilo Della Valle

Proposal for a regulation
Annex I – point 1 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Main information about the import of gas which originates in or is exported directly or indirectly *from the Russian Federation* to the Member State

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies from the Russian Federation

Overall contracted quantities of ***Russian*** gas for delivery in the Member State. Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Amendment

Main information about the import of gas which originates in or is exported directly or indirectly to the Member State

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

deleted

Overall contracted quantities of ***imported*** gas for delivery in the Member State. Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Or. en

Amendment 413
Inese Vaidere

Proposal for a regulation
Annex I – point 1 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies from the Russian Federation

Overall contracted quantities of Russian gas for delivery in the Member State. Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Amendment

Reference of the individual contracts as

communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies *or individuals* from *or controlled by* the Russian Federation

Overall contracted quantities of Russian gas for delivery in the Member State.
Include expiry dates of contractual obligations.

Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Or. en

Amendment 414 Ville Niinistö

Proposal for a regulation Annex I – point 1 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies from the Russian Federation

Overall contracted quantities of Russian gas for delivery in the Member State.
Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Amendment

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies *or individuals* from *or controlled by* the Russian Federation

Overall contracted quantities of Russian gas for delivery in the Member State.

Include expiry dates of contractual obligations.

Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Or. en

Amendment 415
Markéta Gregorová

Proposal for a regulation
Annex I – point 1 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies from the Russian Federation

Overall contracted quantities of Russian gas for delivery in the Member State.
Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Amendment

Reference of the individual contracts as communicated by the importers to the competent authorities and the Commission.

LNG terminal services booked by companies ***or individuals*** from ***or controlled by*** the Russian Federation

Overall contracted quantities of Russian gas for delivery in the Member State.
Include expiry dates of contractual obligations.
Include contractual flexibilities and point of delivery (interconnection point, import point, LNG terminal, etc).

Or. en

Amendment 416
Ville Niinistö

Proposal for a regulation
Annex I – point 3.1 - subparagraph 1 - table

Text proposed by the Commission

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) demand aggregation.

Description of the measure and its objectives, including quantities expected to be phase out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of the measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Amendment

Diversification options ***and alternatives:***

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) demand aggregation;
- (iv) substitution of natural gas with alternatives energy sources, including renewable energy deployment, as well as imports via electrification;***
- (v) energy efficiency/gas saving measures;***
- (vi) measures reducing protected customers' dependency on/exposure to gas.***

Description of the measure and its objectives, including quantities expected to be phase out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of the measures to the energy system, including on flow patterns,

infrastructure capacities, tariffs, etc.
Impact on neighbouring Member States.

Or. en

Amendment 417
Markéta Gregorová

Proposal for a regulation
Annex I – point 3.1 - subparagraph 1 - table

Text proposed by the Commission

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) demand aggregation.

Description of the measure and its objectives, including quantities expected to be phase out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of the measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Amendment

Diversification options **and alternatives:**

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) demand aggregation;
- (iv) substitution of natural gas with alternatives energy sources, including renewable energy deployment, as well as imports via electrification;**
- (v) energy efficiency/gas saving measures;**
- (vi) measures reducing protected customers' dependency on/exposure to gas.**

Description of the measure and its objectives, including quantities expected to

be phase out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of the measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Or. en

Amendment 418

Dario Tamburrano, Danilo Della Valle

Proposal for a regulation

Annex I – point 3.1 - subparagraph 1 - table

Text proposed by the Commission

Description of the measures to replace natural gas which originates in or is exported directly or indirectly **from the Russian Federation**.

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) demand aggregation.

Description of the measure and its objectives, including quantities expected to be phase out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of the measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Amendment

Description of the measures to replace natural gas which originates in or is exported directly or indirectly.

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes;

- (iii) demand aggregation.
- (iv) energy efficiency measures**
- (v) renewable energy uptake**

Description of the measure and its objectives, including quantities expected to be phase out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of the measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Or. en

Amendment 419

Dario Tamburrano, Danilo Della Valle

Proposal for a regulation

Annex I – point 3.1 – subparagraph 2 - table

Text proposed by the Commission

Technical or regulatory barriers to replace gas which originates in or is exported directly or indirectly **from the Russian Federation**.

Technical and regulatory barriers

Options to overcome barriers and timeline

Category

Information required

Replacement of volumes for the phase out¹

Description of measures in place and planned at national level to replace the remaining volumes of natural gas originated in or exported directly or indirectly **from the Russian Federation** (i) quantities expected to be phased out by each measure, (ii) implementation timeline (start-end), (iii) options for alternative supplies and supply routes

Pipeline gas

LNG

¹Such measures may include the use of the Aggregate EU Platform pursuant to Article 42 of

Regulation (EU) 2024/1789, [*The reference seems to be incorrect, please check and correct*] support measures for diversification efforts of energy companies, cooperation in regional groups such as the Central and South-Eastern Europe Energy Connectivity (CESEC) High-Level Group, identifying alternatives to natural gas imports via electrification, energy efficiency measures, boosting the production of biogas, biomethane and clean hydrogen, renewable energy deployment or voluntary demand reduction measures.

Amendment

Technical or regulatory barriers to replace gas which originates in or is exported directly or indirectly

Amendment 420
Markéta Gregorová

Proposal for a regulation

Annex II – point 2 – paragraph 1 – subparagraph 1 - table

Text proposed by the Commission

Name of the authority responsible for the preparation of the plan

Description of the *oil* system. It should include a description of:

(i) the oil demand;

(ii) the supply mix considering the dependence on Russian supply.

Amendment

Name of the authority responsible for the preparation of the plan

Description of the system. It should include a description of:

(i) the demand *for oil and refined oil products*;

(ii) the supply mix considering the dependence on Russian supply.

Or. en

Amendment 421
Ville Niinistö

Proposal for a regulation
Annex II – point 2 – paragraph 1 – subparagraph 1 - table

Text proposed by the Commission

Name of the authority responsible for the preparation of the plan

Description of the *oil* system. It should include a description of:

(i) the oil demand;

(ii) the supply mix considering the

dependence on Russian supply.

Amendment

Name of the authority responsible for the preparation of the plan

Description of the system. It should include a description of:

(i) the demand *for oil and refined oil products*;

(ii) the supply mix considering the dependence on Russian supply.

Or. en

Amendment 422

Dario Tamburrano, Danilo Della Valle

Proposal for a regulation

Annex II – point 2 – paragraph 1 – subparagraph 1 - table

Text proposed by the Commission

Name of the authority responsible for the preparation of the plan

Description of the oil system. It should include a description of:

(i) the oil demand;

(ii) the supply mix considering the dependence *on Russian supply*.

Amendment

Name of the authority responsible for the preparation of the plan

Description of the system. It should include a description of:

(i) the oil demand;

(ii) the supply mix considering the dependence on *imports*.

Amendment 423
Dario Tamburrano, Danilo Della Valle

Proposal for a regulation
Annex II – point 2 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Main information about the import of oil which originates in or is exported directly or indirectly **from the Russian Federation to the Member State**

Overall contracted quantities of **Russian** oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Amendment

Main information about the import of oil which originates in or is exported directly or indirectly

Overall contracted quantities of **imported** oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Amendment 424
Ville Niinistö

Proposal for a regulation

Annex II – point 2 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Overall contracted quantities of Russian oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Amendment

Overall contracted quantities of Russian oil for delivery in the Member State.

Include overall contracted quantities of refined oil products derived from Russian-origin oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Or. en

Amendment 425
Markéta Gregorová

Proposal for a regulation
Annex II – point 2 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Overall contracted quantities of Russian oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Amendment

Overall contracted quantities of Russian oil for delivery in the Member State.

Include overall contracted quantities of refined oil products derived from Russian-origin oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Or. en

Amendment 426
Hanna Gedin

Proposal for a regulation
Annex II – point 2 – paragraph 1 – subparagraph 2 - table

Text proposed by the Commission

Overall contracted quantities of Russian oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Amendment

Overall contracted quantities of Russian oil for delivery in the Member State.

Include expiry date of contractual obligations.

Information about the identity of the different stakeholders (seller, importer, and buyer).

Information about importers shall include insurance and safety and environmental

compliance.

Or. en

Amendment 427

Dario Tamburrano, Danilo Della Valle

Proposal for a regulation

Annex II – point 2 – paragraph 1 – subparagraph 4 - table

Text proposed by the Commission

Description of the measures to replace oil *which originates in or is exported directly or indirectly from the Russian Federation.*

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes.

Description of the measure and its objectives, including quantities expected to be phased out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Technical or regulatory barriers to replace oil which originates in or is exported directly or indirectly *from the Russian Federation.*

Amendment

Description of the measures to replace oil

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes.

(iii) energy efficiency

(iv) renewable energy update

Description of the measure and its objectives, including quantities expected to be phased out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Technical or regulatory barriers to replace oil which originates in or is exported directly or Indirectly

Or. en

Amendment 428
Markéta Gregorová

Proposal for a regulation
Annex II – point 2 – paragraph 1 – subparagraph 4 - table

Text proposed by the Commission

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes.

Description of the measure and its objectives, including quantities expected to be phased out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Amendment

Diversification options **and alternatives:**

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) substitution of oil and refined oil products with alternatives energy sources, including renewable energy deployment;**
- (iv) energy efficiency/demand reduction measures.**

Description of the measure and its objectives, including quantities expected to be phased out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Or. en

Amendment 429

Ville Niinistö

Proposal for a regulation

Annex II – point 2 – paragraph 1 – subparagraph 4 - table

Text proposed by the Commission

Diversification options:

- (i) alternative supplies;
- (ii) alternative supply routes.

Description of the measure and its objectives, including quantities expected to be phased out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.

Amendment

Diversification options ***and alternatives:***

- (i) alternative supplies;
- (ii) alternative supply routes;
- (iii) substitution of oil and refined oil products with alternatives energy sources, including renewable energy deployment;***
- (iv) energy efficiency/demand reduction***

measures.

Description of the measure and its objectives, including quantities expected to be phased out and intermediate steps in case of a multi-stage measure.

Implementation timeline

Impact of measures to the energy system, including on flow patterns, infrastructure capacities, tariffs, etc.

Impact on neighbouring Member States.
