Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Regulation (EU) 2024/1348 as regards the establishment of a list of safe countries of origin at Union level

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 78(2), point (d) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee¹,

Having regard to the opinion of the Committee of the Regions²,

Acting in accordance with the ordinary legislative procedure,

¹ OJ C , , p. .

² OJ C , , p. .

Whereas:

- (1) Under Regulation (EU) 2024/1348 of the European Parliament and the Council³, specific rules apply where an applicant comes from a safe country of origin. In particular, the examination of an application has to be accelerated and, if the applicant has not yet been authorised to enter Member States' territory, a Member State may examine the merits of an application in a border procedure.
- (2) Regulation (EU) 2024/1348 provides for the possibility to designate third countries as safe countries of origin at Union level in accordance with the conditions laid down in that Regulation. It is necessary to strengthen the application of the safe country of origin concept as an essential tool to support the swift examination of applications that are likely to be unfounded by designating third countries as safe countries of origin. It is also necessary to address some of the existing divergences between Member States' national lists of safe countries of origin. Therefore, a list of safe countries of origin at Union level should be established. While Member States retain the right to apply or introduce legislation that allows for the national designation of third countries other than those designated as safe countries of origin at Union level, such common designation at Union level should ensure that the concept is applied by all Member States in a uniform manner in relation to applicants whose countries of origin are designated.
- (3) The fact that a third country is considered as a safe country of origin, either at Union or at national level, cannot constitute an absolute guarantee of safety for nationals of that country, even for those who do not belong to a category of persons for which an exception is made when designating the country as a safe country of origin, and therefore does not dispense with the need to conduct an individual examination of the application for international protection. By its very nature, the assessment underlying the designation can only take into account the general, civil, legal and political circumstances in that country and whether actors of persecution, torture or inhuman or degrading treatment or punishment are subject to sanction in practice when found liable in that country. Member States may apply the concept of a safe

³ Regulation (EU) 2024/1348 of the European Parliament and of the Council of 14 May 2024 establishing a common procedure for international protection in the Union and repealing Directive 2013/32/EU (OJ L, 2024/1348, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1348/oj>).

country of origin only where the applicant cannot provide elements justifying why the concept of safe country of origin is not applicable to him or her, in the framework of an individual assessment, and provided that the applicant has the nationality of that country or he or she is a stateless person and was formerly habitually resident in that country. The application of the concept in the framework of the individual assessment is without prejudice to the fact that certain categories of applicants may find themselves in a specific situation in the third countries designated and may therefore have a well-founded fear of being persecuted or face a real risk of suffering serious harm.

(3a) The assessment of whether a third country should be designated as a safe country of origin is based on a range of relevant and available sources of information, including information from Member States, the European Union Agency for Asylum ('the Asylum Agency'), the European External Action Service, the United Nations High Commissioner for Refugees, and other relevant international organisations. The assessment also takes into account where available the common analysis of the country of origin information referred to in Article 11 of Regulation (EU) 2021/2303 of the European Parliament and of the Council⁴, in accordance with Regulation (EU) 2024/1348. Based on a range of such sources of information, a number of third countries are considered to qualify as safe countries of origin.

(4) With regard to the countries that have been granted the status of candidate States for accession to the Union, the Treaty on European Union sets out the conditions and principles to which any country wishing to become a Member State must conform. These criteria were established by the Copenhagen European Council in 1993 and strengthened by the Madrid European Council in 1995. They are stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities; a functioning market economy and the ability to cope with competitive pressure and market forces within the EU; and the ability to take on the obligations of membership, including the capacity to effectively implement the rules, standards and policies that make up the body of EU law, and adherence to the aims of political, economic and monetary union. A country is granted candidate country

⁴ Regulation (EU) 2021/2303 of the European Parliament and of the Council of 15 December 2021 on the European Union Agency for Asylum and repealing Regulation (EU) No 439/2010 (OJ L 468, 30.12.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/2303/oj>).

status by the European Council on the basis of an opinion from the European Commission, drawn up following the country's application for membership of the Union.

(5) — (...))

(6) The EU candidate countries have been granted this status by the European Council through a unanimous decision, following a recommendation from the European Commission. With regard, in particular, to the political criteria for EU membership, the EU candidate countries were found to have advanced towards reaching the stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities. It can, therefore, be concluded that those third countries that have been granted EU candidate status should be considered as safe countries of origin within the meaning of Regulation (EU) 2024/1348 and should accordingly be designated as safe countries of origin at Union level.⁵ However, due account should be taken of the fact that the situation in an EU candidate country could change to the extent that the designation of the country as a safe country of origin should no longer apply. Therefore, this Regulation should provide that the third countries that have been granted EU candidate status should not be considered as safe countries of origin where any of the following circumstances apply: there is a serious threat to a civilian's life or person by reason of indiscriminate violence in situations of international or internal armed conflict in the country; restrictive measures within the meaning of Title IV of Part Five of the Treaty on the Functioning of the European Union have been adopted in view of the country's actions affecting fundamental rights and freedoms that are relevant for the designation as a safe country of origin; the EU-wide recognition rate pertaining to the applicants from the country is higher than 20 %; or the accession negotiations between the Union and the third country have been formally suspended by the Council].

(6a) It is essential that the designation as safe countries of origin of the States which are candidates for accession to the Union, ~~including the situations in which they should no longer be considered as safe countries of origin,~~ is applied uniformly in all Member States, ~~including as regards the circumstances set out in this Regulation where those countries should no longer be considered as safe countries of origin.~~ To facilitate the implementation of this Regulation and to provide legal certainty, ~~as regards the circumstances where such a~~

⁵ These designations are without prejudice to any future decisions to be taken by the European Council or by the Council on the admission of candidate States into the Union.

~~country should no longer be designated as a safe country of origin at Union level, this Regulation should provide for an efficient mechanism by which the Commission should regularly assess whether any of those specific circumstances apply in a candidate country for accession to the Union the third countries concerned and, based on its assessment, inform the Member States and the Council accordingly. by publishing a notice in the Official Journal of the European Union where those circumstances are considered to apply, subject to the prior approval of the Council. The Commission should also, following an assessment, publish a notice in the Official Journal of the European Union whenever it concludes that those circumstances no longer apply. In view of the potential implications for the external relations of the Union and the Member States, the Commission should not inform the Member States and the Council of the fact that there exists a serious threat by reason of indiscriminate violence in a situation of international or internal armed conflict in an EU candidate country without the prior approval of the Council.~~

- (6b) ~~When In assessing and subsequently informing the Member States and the Council of whether there exists a serious threat to a civilian's life or person by reason of indiscriminate violence in situations of international or internal armed conflict exists in a candidate State for accession to the Union, the Commission should take into account a broad range of relevant sources of information, including information from any relevant institution, body, office or agency of the Union or an international organisation such as its annual progress reports for third countries designated as candidate countries by the European Council, international court decisions and rulings, and reports, resolutions or other public statements from Union institutions, bodies, offices and agencies, as well as from relevant international organisations, including the United Nations, the International Committee of the Red Cross and the Council of Europe. In particular, ¶the Commission should also be able to take into account whether the Council or the European Council or the Council has acknowledged the existence or the end of a statesituation of international or internal armed conflict in the third country concerned. Similarly, in assessing and subsequently informing the Council and the Member States that there is no longer a serious threat to a civilian's life or person by reason of indiscriminate violence in situations of international or internal armed conflict in that country, the Commission should be able to take into account the fact that the European Council or the Council has acknowledged that the relevant circumstances have ceased to exist., or, where applicable~~

and relevant, whether a Council Decision has been adopted in accordance with Articles 5 or 6 of Directive 2001/55/EC, as a consequence of the existence or end of an armed conflict, respectively. Moreover, in view of the potential implications for the external relations of the Union and the Member States with an EU candidate country, the Commission's assessment that there exists a serious threat by reason of indiscriminate violence in situations of international or internal armed conflict should be approved by the Council before publication of a notice in the Official Journal of the European Union.

- (7) With regard to Kosovo⁶, according to the information from the Asylum Agency, 16 Member States currently designate Kosovo as a safe country of origin at national level, and the Union-wide recognition rate for applicants from Kosovo was 5% in 2024. Kosovo is a potential candidate for membership of the Union. Its Constitution incorporates the main international human rights instruments. Kosovo is a multi-party parliamentary representative democracy with a division of power between the legislative, executive and judicial institutions and the relevant legal framework is in line with European standards. There is no death penalty in the national law and Kosovo authorities show commitment to the prevention of torture and ill treatment. There is no armed conflict taking place in Kosovo and therefore no threat exists by reason of indiscriminate violence in situations of international or internal armed conflict. There is no persecution in Kosovo within the meaning of Article 9 of Regulation 2024/1347.
- (8) With regard to Bangladesh, according to the information from the Asylum Agency, 6 Member States currently designate Bangladesh as a safe country of origin at national level, and the

⁶ This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

⁷ Regulation (EU) 2024/1347 of the European Parliament and of the Council of 14 May 2024 on standards for the qualification of third-country nationals or stateless persons as beneficiaries of international protection, for a uniform status for refugees or for persons eligible for subsidiary protection and for the content of the protection granted, amending Council Directive 2003/109/EC and repealing Directive 2011/95/EU of the European Parliament and of the Council (OJ L, 2024/1347, 22.5.2024, ELI: <http://data.europa.eu/eli/reg/2024/1347/oj>)

There is, in general, no real risk of serious harm within the meaning of Article 15 of the Regulation 2024/1347. Although Bangladesh retains the death penalty and did not sign the Second Optional Protocol to the International Covenant on Civil and Political Rights, which aims to abolish the death penalty, death sentences are rarely carried out. Bangladesh has ratified the Convention against Torture and Other Cruel Inhuman or Degrading Treatment or Punishment. India has signed the Convention against Torture and Other Cruel Inhuman or Degrading Treatment or Punishment. There is no armed conflict taking place in India and therefore no threat exists by reason of indiscriminate violence in situations of international or internal armed conflict. There is no armed conflict taking place in Tunisia and therefore no threat exists by reason of indiscriminate violence in situations of international or internal armed conflict. There is, in general, no persecution in the country within the meaning of Article 9 of Regulation (EU) 2024/1347.

~~(14) (...)~~

- (15) Pursuant to Regulation (EU) 2024/1348 a third country may only be designated as a safe country of origin where, on the basis of the legal situation, the application of the law within a

democratic system and the general political circumstances, it can be shown that there is no persecution as defined in Article 9 of Regulation (EU) 2024/1347 and no real risk of serious harm as defined in Article 15 of that Regulation.

- (16) Considering that there is, in general, no risk of persecution or serious harm, within the meaning of Regulation 2024/1347, in Bangladesh, Colombia, Egypt, India, Morocco and Tunisia, as well as Kosovo as a potential candidate for membership of the Union, as also shown by the very low recognition rates, it can be concluded that those countries satisfy the criteria to be considered safe countries of origin within the meaning of Regulation (EU) 2024/1348 and should be designated as safe countries of origin at Union level. This is without prejudice to the possibility for Member States to designate other third countries as safe countries of origin at national level and to the possible future designation of additional third countries as safe countries of origin at Union level by means of future amendments to Regulation (EU) 2024/1348.
- (17) The designation of those countries as safe countries of origin at Union level is without prejudice to the rule set out in Regulation 2024/1348, according to which Member States may apply the concept of a safe country of origin only where applicants cannot provide elements justifying why the concept of safe country of origin is not applicable to them, in the framework of an individual assessment. In that context, special attention should be paid to applicants who are in a specific situation in those countries, such as LGBTIQ persons, victims of gender-based violence, human rights defenders, religious minorities and journalists.
- (17a) Significant changes in a third country designated as a **safe third country** or as a safe country of origin at Union level may disproportionately affect certain areas or groups of persons in that country, leading to different protection needs for applicants from that country and ~~to the necessity of safeguarding the procedural rights and guarantees of certain applicants to ensure that they are not subject to inappropriate asylum procedures.~~ Regulation (EU) 2024/1348 introduces the possibility to designate a third country as a **safe third country** or a safe country of origin with exceptions for specific parts of its territory or clearly identifiable categories of persons. Regulation (EU) 2024/1348 also provides for the Commission to suspend the designation of a third country ~~designated~~ as a **safe third country** or as a safe country of origin at Union level by means of a delegated act where there is a significant change for the worse in the situation of that country. In order to address the situation where a ~~designated~~ third country **designated as a safe third country** or as a **safe country of origin**

at Union level no longer satisfies, for certain categories of persons or in relation to specific parts of the country's territory, the material conditions for such a designation set out in Regulation (EU) 2024/1348, the Commission should ~~also~~ be empowered to adopt delegated acts in accordance with Article 290 TFEU ~~to amend the personal or geographical scope of such a third country's designation as a safe country of origin~~ in order to partially suspend that designation for specific parts of the territory or clearly identifiable categories of persons in the third country concerned ~~for a period of six months~~, where necessary and appropriate in view of ~~any the significant~~ ~~changing circumstances~~ in the country affecting that part or category of persons. ~~Moreover, the Commission should, within 3 months of the adoption of the delegated act providing for the partial suspension of that third country, present a legislative proposal to amend that third country's designation as a safe third country or as a safe country of origin at Union level in accordance with the ordinary legislative procedure. Where a Member State notifies the Commission that it considers, on the basis of a substantiated assessment, that, following changes in the situation of that third country, it once again fulfils the conditions set out in Regulation (EU) 2024/1348 with respect to its entire territory or population, or certain parts thereof, the Commission may propose an amendment to the designation of that country as a safe third country or as a safe country of origin. That delegation of power should be exercised in a reasonable and proportionate manner, taking into account the objectives and requirements of the concept of safe country of origin. That delegation of power should also be without prejudice to any legislative proposal to amend a third country's designation as a safe country of origin at Union level in accordance with the ordinary legislative procedure. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Inter-institutional Agreement of 13 April 2016 on Better Law-Making.⁸ In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.~~

⁸ OJ L 123, 12.5.2016, p. 1.

- (18) Considering that the migratory situation can rapidly change and there is increased pressure resulting from the arrivals of mixed flows with a high proportion of those with low chances of receiving international protection, Member States should be able to apply the ground for accelerating the examination of applications set out in Article 42(1)(j) of Regulation (EU) 2024/1348, from an earlier date than the general date of application of that Regulation, provided that Member States have transposed and implemented the relevant provisions and procedures set out in Directive 2013/32/EU. This would allow Member States to react quickly and in a flexible manner to changes in the migratory flows. Considering that applications from such applicants are likely to be unfounded, dealing with them swiftly in an accelerated or a border procedure would allow the asylum and migration authorities to more efficiently assess genuine claims, deliver faster decisions and thereby contribute to a better and more credible functioning of asylum and return policies, in full respect of fundamental rights.
- (19) Moreover, in order to further take into account complex and actual situations in third countries not designated as safe countries of origin or safe third countries at Union level, Member States should, when applying or introducing legislation that allows for the national designation of such countries, be able to do so with exceptions for specific parts of their territory or clearly identifiable categories of persons, before Regulation 2024/1348 starts to apply.
- (20) Since the objective of this Regulation, namely the establishment of a common list of safe countries of origin at Union level and advancing the application of certain provisions of Regulation 2024/1348, cannot be sufficiently achieved by the Member States and can only be achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union (TEU). In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve that objective.
- (21) ~~In accordance with Article 3 and Article 4a(1) of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, Ireland has notified~~, by letter of **22 July 2025**, its wish to take part in the adoption and application of this **Regulation**.~~{act.}~~

~~[In accordance with Articles 1, 2 and Article 4a(1) of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and without prejudice to Article 4 of that Protocol, Ireland is not taking part in the adoption of this [act] and is not bound by it or subject to its application.]~~

- (22) In accordance with Articles 1 and 2 of Protocol No 22 on the position of Denmark annexed to the Treaty on European Union and the Treaty on the Functioning of the European Union, Denmark is not taking part in the adoption of this Regulation and is not bound by it or subject to its application.
- (23) This Regulation respects the fundamental rights and observes the principles recognised in particular by the Charter of Fundamental Rights of the EU.
- (24) Regulation (EU) 2024/1348 should be amended accordingly.
