TRANSFER OF PNR DATA

- (a) by electronic means in compliance with the technical requirements of the Korean competent authority or, in the case of a technical failure, by any other appropriate means ensuring an appropriate level of data security;
- (b) by using a mutually accepted messaging format, and in a secure manner using common protocols as required by the Korean competent authority;
- (c) either directly or through authorised agents, who act on behalf of and under the responsibility of an air carrier, for the purpose of and under the conditions laid down in this Agreement.

2. Korea shall not require air carriers to provide elements of PNR data which are not already held or collected by air carriers for their reservation purposes or in the air carriers' normal course of their business.

3. Korea shall ensure that the Korean competent authority deletes any data element transferred to it by an air carrier pursuant to this Agreement upon receipt of the PNR data, if that data element is not listed in the Annex.

4. Korea shall ensure that the Korean competent authority requires air carriers to transfer PNR data:

- (a) on a scheduled basis with the earliest point in time being up to 48 hours before the scheduled departure; and
- (b) a maximum of five times, for a particular flight.

5. Korea shall permit air carriers to limit the transfer referred to in point (b) of paragraph 4 to updates of the PNR data transferred as referred to in point (a) of that paragraph.

6. Korea shall ensure that the Korean competent authority informs air carriers of the specified times for the transfers.

7. In specific cases where there is an indication that additional access is necessary to respond to a specific threat related to the purposes set out in Article 4, the Korean competent authority may require an air carrier to provide PNR data prior to, between or after the scheduled transfers. In exercising this discretion, Korea shall act judiciously and proportionately and shall require the use of the method of transfer referred to in paragraph 1 of this Article.

CHAPTER III

The Korean competent authority may process PNR data exclusively by means of the following specific modalities of processing:

- (a) carrying out an assessment of passengers prior to their scheduled arrival in or departure from Korea to identify persons who require further examination by the competent authorities, in view of the fact that such persons may be involved in a terrorist offence or serious crime in accordance with the real-time assessment carried out under Article 6;
- (b) carrying out a search into the database of retained PNR data with a view to responding, on a case-by-case basis, to a duly reasoned request submitted pursuant to Articles 12 and 13 and, where appropriate, disclosing any relevant PNR data or the results of their processing;
- (c) analysing PNR data for the purpose of updating, testing or creating new criteria to be used in the assessments carried out under Article 6(1)(b), in order to identify any persons who may be involved in a terrorist offence or serious crime;

ARTICLE 6

- (a) compare PNR data only against databases on persons or objects sought or under alert, in accordance with international and national rules applicable to such databases; and
- (b) process PNR data against pre-determined criteria.

2. Korea shall ensure that the databases referred to in paragraph 1(a) of this Article are non-discriminatory, reliable, up to date and relevant for the purposes set out in Article 4.

3. Korea shall ensure that any assessment of PNR data as referred to in paragraph 1(b) of this Article is based on non-discriminatory, specific and reliable pre-established models and criteria to enable the Korean competent authority to arrive at results targeting individuals who might be under a reasonable suspicion of involvement or participation in terrorist offences or serious crime. Korea shall ensure that those criteria are in no circumstances based on a person's race or ethnic origin, political opinions, religion or philosophical beliefs, trade union membership, health, sexual life or sexual orientation.

4. Korea shall ensure that any positive match resulting from the real-time processing of PNR data is individually reviewed by the Korean competent authority by non-automated means.

ARTICLE 7

Special categories of data

1. Any processing of PNR data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and the processing of genetic data, biometric data for the purpose of uniquely identifying a natural person, of data concerning health or data concerning a natural person's sex life or sexual orientation shall be prohibited under this Agreement.

Korea shall provide a classified report to the European Union outlining the outcome of the review, including the level of risk identified, factors considered in minimising the data retention period, and the related retention decision.
3.
